Klassische Fadengrafik in geometrischen Formen war gestern, heute entstehen groß- und kleinformige String-Art-Motive mit Nagel und Faden auf Holzuntergründen, Pappe, Papier oder direkt an einer Wand. Ob alte Klassiker, kesse Statements im Handlettering-Stil oder berühmte Stadtansichten - Fadenkunst in seiner neuen Form ist bunt, inspirierend, macht enormen Spaß und sorgt für eine individuelle Wohnraumdeko. Dabei müssen Sie sich an fast keine Regeln halten und können den Faden auf viele verschiedene Arten spannen.

Aufgrund der großen Nachfrage habe ich meine eigenen Erfahrungen, die wichtigsten Tipps und Tricks sowie eine kleine Materialkunde für Sie in diesem Blooklet zusammengetragen. Ein wesentlicher Aspekt für mich war und ist ein umweltfreundlicher Upcycling"-Gedanke, das heißt, Altes und Gebrauchtes einer neuen Verwendung zuzuführen. Deshalb bemalte ich ausschließlich gebrauchte Objekte und am liebsten seltene Vintage-Puppen. Viel Spaß beim Gestalten Ihrer eigenen Schaufensterpuppe.

“Guides readers toward the road less consumptive, offering practical advice and moral support while making a convincing case that individual actions . . . do matter.” —Elizabeth Royte, author, *Garbage Land* and *Bottlemania* Like many people, Beth Terry didn't think an individual could have much impact on the environment. But while laid up after surgery, she read an article about the staggering amount of plastic polluting the oceans, and decided then and there to kick her plastic habit. In *Plastic-Free*, she shows you how you can too, providing personal anecdotes, stats about the environmental and health problems related to plastic, and individual solutions and tips on how to limit your plastic footprint. Presenting both beginner and advanced steps, Terry includes handy checklists and tables for easy reference, ways to get involved in larger community actions, and profiles of individuals—*Plastic-Free Heroes*—who have gone beyond personal solutions to create change on a larger scale. Fully updated for the paperback edition, *Plastic-Free* also includes sections on letting go of eco-guilt, strategies for coping with overwhelming problems, and ways to relate to other people who aren't as far along on the plastic-free path. Both a practical guide and the story of a personal journey from helplessness to empowerment, *Plastic-Free* is a must-read for those concerned about the ongoing health and happiness of themselves, their children, and the planet.

The WHO Guidelines on Hand Hygiene in Health Care provide health-care workers (HCWs), hospital administrators and health authorities with a thorough review of evidence on hand hygiene in health care and specific recommendations to improve practices and reduce transmission of pathogenic microorganisms to patients and HCWs. The present Guidelines are intended to be implemented in any situation in which health care is delivered either to a patient or to a specific group in a population. Therefore, this concept applies to all settings where health care is permanently or occasionally performed, such as home care by birth attendants. Definitions of health-care settings are proposed in Appendix 1. These Guidelines and the associated WHO Multimodal Hand Hygiene Improvement Strategy and an Implementation Toolkit (<http://www.who.int/gpsc/en/>) are designed to offer health-care facilities in Member States a conceptual framework and practical tools for the application of recommendations in practice at the bedside. While ensuring consistency with the Guidelines recommendations, individual adaptation according to local regulations, settings, needs, and resources is desirable. This extensive review includes in one document sufficient technical information to support training materials and help plan implementation strategies. The document comprises six parts.

León Ferrari and Mira Schendel are among the most significant Latin American artists of the 20th century. Active during the 1960s, 1970s and 1980s in the neighbouring countries of Argentina and Brazil, they found inspiration in the written word and in the eloquence of spoken language. Their striking visual production coincided with a period of significant focus on language by philosophers and artists. León Ferrari & Mira Schendel is published to accompany the first comprehensive exhibition of the work of these two artists in the United States, presenting new insights on the artists' deconstruction of language through a visual repertoire and examining the connections and collisions between the visual arts, the written form, politics and religion.
