Craig's study of McAdoo and Baker illuminates the aspirations and struggles of two prominent southern Democrats. In this dual biography, Douglas B. Craig examines the careers of two prominent American public figures, Newton Diehl Baker and William Gibbs McAdoo, whose lives spanned the era between the Civil War and World War II. Both Baker and McAdoo migrated from the South to northern industrial cities and took up professions that had nothing to do with staple-crop agriculture. Both eventually became cabinet officers in the presidential administration of another southerner with personal memories of defeat and Reconstruction: Woodrow Wilson. A Georgian who practiced law and led railroad tunnel construction efforts in New York City, McAdoo served as treasury secretary at a time when Congress passed an income tax, established the Federal Reserve System, and funded the American and Allied war efforts in World War I. Born in the eastern panhandle of West Virginia, Baker won election as mayor of Cleveland in the early twentieth century and then, as Wilson's secretary of war, supervised the dramatic build-up of the U.S. military when the country entered the Great War in Europe. This is the first full biography of McAdoo and the first since 1961 of Baker. Craig points out similarities and differences in their backgrounds, political activities, professional careers, and family lives. Craig's approach in *Progressives at War* illuminates the shared struggles, lofty ambitions, and sometimes conflicted interactions of these figures. Their experiences and perspectives on public and private affairs (as insiders who nonetheless were, in some sense, outsiders) make their lives, work, and thought especially interesting. Baker and McAdoo, in league with Wilson, offer Craig the opportunity to deliver a fresh and insightful study of the period, its major issues, and some of its leading figures.

[The Life and Character of Patrick Henry](#) Saint James Press

Mike Peyton drew his first cartoon in 1942. At the time he was interned in a German prisoner of war camp, and the cartoon appeared in a newspaper run by and for his fellow prisoners. Seventy years later, Mike has had to put the cap back on his pen permanently as failing eyesight has prevented him from drawing any more cartoons for the *Yachting Monthly* Confessional column for which he has become so well loved in recent years. Having provided illustrations for magazines as varied as the *Church of England Times* and *Corsetry & Underwear*, Mike became best known for cartoons relating

to his first love - yachting (and as he will happily point out, he had a boat before he had a car). To celebrate his career, Adlard Coles Nautical presents this hilarious retrospective of the very best of Mike's cartoons from the last eight decades, a collection that will bring a smile to the face of even the most rain-sodden sailor stuck in his marina berth for another week supposedly in summer. When yachting journalist Dick Durham wrote Mike's biography, he called Mike 'the world's greatest yachting cartoonist' and this book shows why. Witty, wise and well-executed, Mike's lively, perceptive and highly distinctive cartoons will speak to anyone who has ever taken to the water.

Nothing seems more far removed from the visceral, bodily experience of emotions than the cold, rational technology of the Internet. But as this collection shows, the internet and emotions intersect in interesting and surprising ways. *Internet and Emotions* is the fruit of an interdisciplinary collaboration of scholars from the sociology of emotions and communication and media studies. It features theoretical and empirical chapters from international researchers who investigate a wide range of issues concerning the sociology of emotions in the context of new media. The book fills a substantial gap in the social research of digital technology, and examines whether the internet invokes emotional states differently from other media and unmediated situations, how emotions are mobilized and internalized into online practices, and how the social definitions of emotions are changing with the emergence of the internet. It explores a wide range of behaviors and emotions from love to mourning, anger, resentment and sadness. What happens to our emotional life in a mediated, disembodied environment, without the bodily element of physical co-presence to set off emotional exchanges? Are there qualitatively new kinds of emotional exchanges taking place on the internet? These are only some of the questions explored in the chapters of this book, with quite surprising answers.

[Dictionary of Twentieth-Century British Cartoonists and Caricaturists](#) Taylor & Francis

British cartoonists and caricaturists are renowned worldwide. Originally published in 2000, this indispensable handbook offers a unique 'who's who' of all the major artists working in Britain in the twentieth century and contains nearly 500 entries. Extensively illustrated, the book provides information on the work of artists such as Steve Bell, Gerald Scarfe, Posy Simmonds, Ronald Searle, Trog, mac and Larry as well as such past masters as David Low, Vicky, H. M. Bateman, Illingworth, Heath Robinson and more. The dictionary concentrates primarily on political cartoonists, caricaturists and joke or 'gag' cartoonists, actively working for the main Fleet Street national dailies

and weeklies from 1900 to 1995. Each entry is cross-referenced and provides a concise biographical outline with an account of the artist's style, influences and preferred medium. Where relevant the entry includes suggestions for further reading and notes solo exhibitions, books illustrated and works held in public collections. The Dictionary of Twentieth-Century British Cartoonists and Caricaturists offers an insight into the lives of satirical artists working during a century that provoked cartoonists and caricaturists to a pitch of comic and artistic invention that has rarely been matched.

No other region in America is so fraught with projected meaning as Appalachia. Many people who have never set foot in Appalachia have very definite ideas about what the region is like. Whether these assumptions originate with movies like *Deliverance* (1972) and *Coal Miner's Daughter* (1980), from Robert F. Kennedy's widely publicized Appalachian Tour, or from tales of hiking the Appalachian Trail, chances are these suppositions serve a purpose to the person who holds them. A person's concept of Appalachia may function to reassure them that there remains an "authentic" America untouched by consumerism, to feel a sense of superiority about their lives and regions, or to confirm the notion that cultural differences must be both appreciated and managed. In *Selling Appalachia: Popular Fictions, Imagined Geographies, and Imperial Projects, 1878-2003*, Emily Satterwhite explores the complex relationships readers have with texts that portray Appalachia and how these varying receptions have created diverse visions of Appalachia in the national imagination. She argues that words themselves not inherently responsible for creating or destroying Appalachian stereotypes, but rather that readers and their interpretations assign those functions to them. Her study traces the changing visions of Appalachia across the decades from the Gilded Age (1865-1895) to the present and includes texts such as John Fox Jr.'s *Trail of the Lonesome Pine* (1908), Harriet Arnow's *Hunter's Horn* (1949), and Silas House's *Clay's Quilt* (2001), charting both the portrayals of Appalachia in fiction and readers' responses to them. Satterwhite's unique approach doesn't just explain how people view Appalachia, it explains why they think that way. This innovative book will be a noteworthy contribution to Appalachian studies, cultural and literary studies, and reception theory.

Throughout its history, the yard has been associated with names like Washington, Jefferson, Lincoln, and Kennedy. Kings and queens have visited the yard; its waterfront has seen many historic moments; and some of our Navy's most senior and most notable officers have called it home. Such legendary ships as USS Constitution and USS Constellation sailed from its piers, and the 14-inch and 16-inch guns that armed our Navy's battleships during World Wars I and II were built in its factories.

Focusing on a richly significant time in our recent past, Sebastian Faulks, the bestselling author of *Birdsong* and *Charlotte Gray*, has written his first novel set in America. The year is 1960—a fascinating moment of transition in our country, when the comfortable Eisenhower years were drawing to a close and the ruthlessly competitive Nixon/Kennedy presidential campaign signaled the beginning of a starkly different decade. Mary van der Linden has recently moved from London to Washington, D.C., with her two children and her loving, admired husband, Charlie, who is posted to the British Embassy. Nearly forty, Mary has spent a lifetime as a loyal daughter, wife and mother. But in this year of so much change, she feels compelled to break away from her familiar world and is drawn to the freedom of New York City, which is effervescent with parties, jazz, three- martini lunches, girls in their summer dresses and men in their Sinatra hats and big ties. Greenwich Village is still charmingly bohemian, and Miles Davis's hit tune "On Green Dolphin Street" is playing everywhere. Mary finds a hotel room in New York and then finds a lover, while back in Washington her husband drinks to forget the demands of his job, the absence of his wife and the Cold War paranoia that has overtaken the capital. Faulks breaks new ground with this novel: It is a love story,

not a war story, and it is set in America rather than France. Yet readers of his two previous bestselling novels will recognize the close focus of the historical setting, the unforgettable characters and the gathering emotional power of the narrative. On Green Dolphin Street is a dramatic, tremendously moving novel that is certain to extend the American audience for this prodigiously talented author's work.

Despite an often unfair reputation as being less popular, less successful, or less refined than their bona-fide Broadway counterparts, Off Broadway musicals deserve their share of critical acclaim and study. A number of shows originally staged Off Broadway have gone on to their own successful Broadway runs, from the ever-popular A Chorus Line and Rent to more off-beat productions like Avenue Q and Little Shop of Horrors. And while it remains to be seen if other popular Off Broadway shows like Stomp, Blue Man Group, and Altar Boyz will make it to the larger Broadway theaters, their Off Broadway runs have been enormously successful in their own right. This book discusses more than 1,800 Off Broadway, Off Off Broadway, showcase, and workshop musical productions. It includes detailed descriptions of Off Broadway musicals that closed in previews or in rehearsal, selected musicals that opened in Brooklyn and in New Jersey, and American operas that opened in New York, along with general overviews of Off Broadway institutions such as the Light Opera of Manhattan. The typical entry includes the name of the host theater or theaters; the opening date and number of performances; the production's cast and creative team; a list of songs; a brief plot synopsis; and general comments and reviews from the New York critics. Besides the individual entries, the book also includes a preface, a bibliography, and 21 appendices including a discography, filmography, a list of published scripts, and lists of musicals categorized by topic and composer.

Chrissie Hynde, for nearly four decades the singer/songwriter/ undisputed leader of the Pretenders, is a justly legendary figure. Few other rock stars have managed to combine her swagger, sexiness, stage presence, knack for putting words to music, gorgeous voice and just all-around kick-assedness into such a potent and alluring package. From "Tattooed Love Boys" and "Brass in Pocket" to "Talk of the Town" and "Back on the Chain Gang," her signature songs project a unique mixture of toughness and vulnerability that millions of men and women have related to. A kind of one-woman secret tunnel linking punk and new wave to classic guitar rock, she is one of the great luminaries in rock history. Now, in her no-holds-barred memoir Reckless, Chrissie Hynde tells, with all the fearless candor, sharp humor and depth of feeling we've come to expect, exactly where she came from and what her crooked, winding path to stardom entailed. Her All-American upbringing in Akron, Ohio, a child of postwar power and prosperity. Her soul capture, along with tens of millions of her generation, by the gods of sixties rock who came through Cleveland—Mitch Ryder, David Bowie, Jeff Back, Paul Butterfield and Iggy Pop among them. Her shocked witness in 1970 to the horrific

shooting of student antiwar protestors at Kent State. Her weakness for the sorts of men she calls "the heavy bikers" and "the get-down boys." Her flight from Ohio to London in 1973 essentially to escape the former and pursue the latter. Her scuffling years as a brash reviewer for New Musical Express, shop girl at the Malcolm McLaren and Vivienne Westwood boutique 'Craft Must Wear Clothes But The Truth Loves To Go Naked', first-hand witness to the birth of the punk movement, and serial band aspirant. And then, at almost the last possible moment, her meeting of the three musicians who comprised the original line-up of The Pretenders, their work on the indelible first album "The Pretenders," and the rocket ride to "Instant" stardom, with all the disorientation and hazards that involved. The it all comes crashing back down to earth with the deaths of lead guitarist James Honeyman Scott and bassist Peter Farndon, leaving her bruised and saddened, but far from beaten. Because Chrissie Hynde is, among other things, one of rock's great survivors. We are lucky to be living in a golden age of great rock memoirs. In the aptly titled Reckless, Chrissie Hynde has given us one of the very best we have. Her mesmerizing presence radiates from every line and page of this book.

This book contains a number of papers presented at a workshop organised by the World Bank in 1997 on the theme of 'Social Capital: Integrating the Economist's and the Sociologist's Perspectives'. The concept of 'social capital' is considered through a number of theoretical and empirical studies which discuss its analytical foundations, as well as institutional and statistical analyses of the concept. It includes the classic 1987 article by the late James Coleman, 'Social Capital in the Creation of Human Capital', which formed the basis for the development of social capital as an organising concept in the social sciences.
