Nelson Mandela is one of the great moral and political leaders of our time: an international hero whose lifelong dedication to the fight against racial oppression in South Africa won him the Nobel Peace Prize and the presidency of his country. Since his triumphant release in 1990 from more than a quarter-century of imprisonment, Mandela has been at the center of the most compelling and inspiring political drama in the world. As president of the African National Congress and head of South Africa's antiapartheid movement, he was instrumental in moving the nation toward multiracial government and majority rule. He is revered everywhere as a vital force in the fight for human rights and racial equality. LONG WALK TO FREEDOM is his moving and exhilarating autobiography, destined to take its place among the finest memoirs of history's greatest figures. "Set in Aligarh in the early 1960s, after the dust of Partition has ostensibly settled, Topi Shukla is a story of two friends - one Hindu and the other Muslim." "Through the characters of people like Topi and Iffan, the novel looks at the lives of ordinary people trying to survive in a society that insists on a brutal conformity of behaviour. It is about individuals whose spirits are paralysed because they cannot conform, and about history's inability to teach mankind any worthwhile lessons." "Language plays an important part in this narrative, operating almost as a character in its own right. Topi, as a Hindi bull in the Urdu china shop, invokes the historical stand-off between the two languages. The novel also explores the culture and psyche of Uttar Pradesh with its very Muslim Aligarh, its very Hindu Benares, and their exotic confluence in Lucknow."--BOOK JACKET.

This charming, expansive novel set in the sixteenth-century medieval Bengal draws on the life of the great medieval poet Kabikankan Mukundaram Chakrabarti, whose epic poem Abhayamangal, better known as Chandimangal, records the socio-political history of the time. In the section of this epic called Byadhkhanda the Book of the Hunter he describes the lives of hunter tribes, the Shabars, who lived in the forest and its environs. Mahasweta Devi explores the cultural values of the Shabars and how they cope with the slow erosion of their way of life as more and more forest land gets cleared to make way for settlements. She uses the lives of two couples, the brahman Mukundaram and his wife, and the young Shabars, Phuli and Kalya, to capture the contrasting socio-cultural norms of rural society of the time. Mahasweta Devi acknowledges her debt to Mukundaram, who wrote about men and women, gods and goddesses. The hunter tribes refusal to cultivate and settle down, as described by him, is true of surviving forest tribes today. The villages and rivers mentioned by him still exist. Mahasweta Devi is one of India's foremost writers. Her powerful fiction has won her recognition in the form of the Sahitya Akademi (1979), Jnanpith (1996) and Ramon Magsaysay (1996) awards, the title of Officier del Ordre Des Arts Et Des Lettres (2003) and the Nonino Prize (2005) amongst several other literary honours. She was also awarded the Padmasree in 1986, for her activist work among dispossessed tribal communities. Sagaree Sengupta is translator based in the USA. She translates from Bengali, Hindi and Urdu. She has collaborated on this translation with her mother, Mandira Sengupta, an artist who maintains an active interest in her native Bengali. The two of them earlier translated The Queen of Jhansi in this series.

What is the relationship between common-sense, or 'folk', psychology and contemporary scientific psychology? Are they in conflict with one another? Or do they perform quite different, though perhaps complementary, roles? George Botterill and Peter Carruthers discuss these questions, defending a robust form of realism about the commitments of folk psychology and about the prospects for integrating those commitments into natural science. Their focus throughout the book is on the ways in which cognitive science presents a challenge to our common-sense self-image - arguing that our native conception of the mind will be enriched, but not overturned, by science. The Philosophy of Psychology is designed as a textbook for upper-level undergraduate and beginning graduate students in philosophy and cognitive science, but as a text that not only surveys but advances the debates on the topics discussed, it will also be of interest to researchers working in these areas.
