LOG ON TO COMPUTERS series consists of ten thoroughly revised and updated textbooks for classes 1-10. The books aim to help students master the use of various types of software and IT tools. The books have been designed to keep pace with the latest technologies and the interests of the 21st century learners. The series is based on Windows 7 and MS Office 2010 and adopts an interactive approach to teach various concepts related to Computer Science. The books for classes 1-5 focus

on the basics of computers, Windows, MS Office, OpenSource software and programming language LOGO. However, the books for classes 6–8 encourage students to experience and explore more about programming languages like QBasic, HTML and Visual Basic, application software such as Photoshop, Flash and MS Office. The ebook version does not contain CD.

Dashboard Computer Science 08 Apress Microcomputer Applications, Introduction to Computer Applications, Computer Applications, Computer Concepts, Computers in Nursing, Computers in Education/Business, Computer Science, Nursing, Education, Communications, Continuing Education/2-year and 4-year colleges, universities, and high schools. SmartStarts combine step-by-step instructions, oversize screen shots, continuing projects, and thorough explanations to introduce students to software applications in 12-24 contact hours. You can get there Where do you want to go? You might already be working in the information technology field and may be looking to expand your skills. You might be setting out on a new career path. Or, you might want to learn more about exciting opportunities in computer programming. Wherever you want to go, Introduction to Programming Using Visual Basic will help you get there. Easy-to-read, practical, and up-to-date, this text not only helps you learn the fundamental concepts of programming with Visual Basic, it also helps you master the core competencies and skills you need to succeed in the classroom and in the real world. The book's brief, modular format and variety of built-in learning resources enable you to learn at your own pace and focus your studies. With this book, you will be able to:

- \* Understand the fundamentals of programming using Microsoft Visual Studio 2005 and Microsoft Visual Basic 2005, from the ground up
- \* Break down what a program should do into steps and write code that describes those steps to the compiler
- \* Use variables, constants, and operators to store and perform operations on data within a program
- \* Save time with

- reusable code
- \* Use arrays and collections to manage lists of data
- \* Design an effective, easy-to-use user interface
- \* Apply object-oriented programming to build your own classes and use them in your projects
- \* Access relational data in an application
- \* Read data from and write data to files using Visual Basic
- \* Debug and handle exceptions in an application
- \* Deploy an application
- \* Build a Web application with Visual Basic, ASP.Net, and HTML.

Wiley Pathways helps you achieve your goals Not every student is on the same path, but every student wants to succeed. The Information Technology series in the new Wiley Pathways imprint helps you achieve your goals. The books in this series--Introduction to Databases, Introduction to Programming Using Visual Basic, Introduction to Operating Systems, Networking Basics, Windows Network Administration, Network Security Fundamentals, and PC Hardware Essentials--offer a coordinated information technology curriculum.  This certification exam measures the ability to develop and implement Web-based applications with Web forms, ASP.NET, and the Microsoft .NET Framework. This exam counts as a core credit toward the new MCAD (Microsoft Certified Application Developer) certification as well as a core credit toward the existing MCSA .NET certification. This book is not intended to teach new material. Instead it assumes that you have a solid foundation of knowledge but can use a refresher on important concepts as well as a guide to exam topics and objectives. This book focuses exactly on what you need to pass the exam - it features test-taking strategies, time-saving study tips, and a special Cram Sheet that includes tips, acronyms, and memory joggers not available anywhere else. The series is supported online at several Web sites: examcram.com, informit.com, and cramsession.com. The accompanying CD features PrepLogic(tm) Practice Tests, Preview Edition. This product includes one complete PrepLogic

Practice Test with approximately the same number of questions found on the actual vendor exam. Each question contains full, detailed explanations of the correct and incorrect answers. The engine offers two study modes, Practice Test and Flash Review, full exam customization, and a detailed score report.

Utility Information System About the author Mr. Vikalp Joshi holds a B.Tech (Instrumentation) degree from University Science Instrumentation Center, H.N.B.G.U, Srinagar (Garhwal), and M.Tech (Instrumentation and Control) from Graphic Era University, Dehradun. Currently, he is working as an automation engineer and has published many research papers on national and international journals. His area of interest covers Industrial Automation, Industrial instrumentation, and Process Control Instrumentation. Dr. Manoj Singh Adhikari received his B.Tech. degree in Electronics and Communication Engineering from Dev Bhoomi Institute of Technology, Dehradun, India, in 2010 and M.Tech. degree in Digital Signal Processing Engineering from the G. B. Pant Institute of Engineering and Technology (formerly known as G. B. Pant Engineering College), Pauri Garhwal, India, in 2013. He received his Ph. D. in Jan. 2019 from the same institution. Currently, he is working as an Assistant Professor in

Lovely Professional University, Phagwara, Punjab. His research interests are simulation and modeling of power semiconductor devices. Dr. Raju Patel is working as an Assistant Professor in Department of Electronics & Communications Engineering, MBM Engineering College, Jodhpur, Rajasthan, India. He received his Ph.D. and M.Tech. (Specialization - VLSI Design) degrees from Malaviya National Institute of Technology, Jaipur, India, in 2014 and 2018 respectively. Bachelor of Engineering degree in Electronics & Communication Engineering from S.B.C.E.T., Jaipur, University of Rajasthan, 2007. He has a teaching and research experience for over eleven years. His research interests include design, simulation, fabrication, and characterization of Film Bulk Acoustic Resonator as a RF filter and gas sensing applications. Dr. Rajesh Singh is currently associated with Lovely Professional University as a Professor with more than fifteen years of experience in academics. He has been awarded as gold medalist in M.Tech and honors in his B.E. His area of expertise includes embedded systems, robotics, wireless sensor networks, and

Internet of Things. He has organized and conducted a number of workshops, summer internships, and expert lectures for students as well as faculty. He has twenty three patents in his account. He has published around hundred research papers in referred journals/conferences. Dr. Anita Gehlot is currently associated with Lovely Professional University as an Associate Professor with more than ten years of experience in academics. She has twenty patents in her account. She has published more than fifty research papers in referred journals and conference. She has organized a number of workshops, summer internships, and expert lectures for students. She has been awarded with "e;certificate of appreciation"e; from University of Petroleum and Energy Studies for exemplary work. She has published fifteen books in the area of Embedded Systems and Internet of Things with reputed publishers.
