## LOGAN GRANT

---

*Women and Mental Health* Routledge  
"Women have made significant inroads into politics in recent years, but in many parts of the world, their increased engagement has spurred physical attacks, intimidation, and harassment intended to deter their participation. This book provides the first comprehensive account of this phenomenon, exploring how women came to give these experiences a name - violence against women in politics - and lobbied for its increased recognition by citizens, states, and international organizations. Tracing how this concept emerged inductively on the global stage, the volume draws on research in multiple disciplines to resolve lingering ambiguities regarding its contours. It argues that this phenomenon is not simply a gendered extension of existing definitions of political violence privileging physical aggressions against political rivals. Rather, violence against women in politics is a distinct phenomenon involving a broad range of harms to attack and undermine women as political actors. Drawing on a wide range of country examples, the book illustrates what this violence looks like in practice,

as well as catalogues emerging solutions around the world. Issuing a call to action, it considers how to document this phenomenon more effectively, as well as understand the political and social implications of allowing violence against women in politics to continue unabated. Highlighting the threats it poses to democracy, human rights, and gender equality, the volume concludes that tackling violence against women in politics requires ongoing dialogue and collaboration to ensure women's equal rights to participate - freely and safely - in political life around the globe"--  
*Encyclopedia of Transnational Crime and Justice* Springer Nature

This book brings together some of the most interesting and innovative work being done to tackle gender-based violence in various sectors, world regions, and socio-political contexts. It will be useful to development and humanitarian practitioners, policy makers, and academics, including gender specialists.

**Sexual Violence in Conflict and Post-Conflict Societies** Hong Kong University Press

This book focuses on the politics, ethics and stereotypical pitfalls of representational practices surrounding Gender-Based Violence (GBV) from a global perspective. The originality of the volume is linked to its cross-disciplinary

perspective as the topic of representing GBV is analyzed across the domains of philosophy/epistemology, fiction and the arts (including literature, film, television series and music) and non-fictional representations in the media (including broadcast media, online/print journalism, transmedia activism). The volume identifies contemporary representational practices and the theoretical and critical responses, examining various aspects of popular culture from around the world. In doing so, the editors put feminism in conversation with global trends to identify its cultural frontline. The volume will appeal to scholars working on gender and violence from diverse fields.

**Eros of International Relations** World Bank Publications

This new edition of *A Guide to Federal Terms and Acronyms* presents a glossary of key definitions used by the Federal Government. It is updated to include new acronyms and terminology from various Federal Government departments.

*International Handbook of Elder Abuse and Mistreatment* Springer Nature

This book argues that larger flaws in the global supply chain must first be addressed to change the way business is conducted to prevent factory owners from taking deadly risks to meet clients' demands in the garment industry in Bangladesh. Using the 2013 Rana Plaza disaster as a departure point, and to prevent such tragedies from occurring in the future, this book presents an interdisciplinary analysis to address the disaster which resulted in a radical change in the functioning of the garment industry. The chapters present innovative ways of thinking about solutions that go beyond third-party monitoring. They open up possibilities for a renewed engagement of

international brands and buyers within the garment sector, a focus on direct worker empowerment using technology, the role of community-based movements, developing a model of change through enforceable contracts combined with workers movements, and a more productive and influential role for both factory owners and the government. This book makes key interventions and rethinks the approaches that have been taken until now and proposes suggestions for the way forward. It engages with international brands, the private sector, and civil society to strategize about the future of the industry and for those who depend on it for their livelihood. A much-needed review and evaluation of the many initiatives that have been set up in Bangladesh in the wake of Rana Plaza, this book is a valuable addition to academics in the fields of development studies, gender and women's studies, human rights, poverty and practice, political science, economics, sociology, anthropology, and South Asian studies.

Marital Rape Edward Elgar Publishing

We know that gender traits and mental disorders are based on social, cultural, personal and physiological background. In order to formulate the best management plan for the patient, the mental health practitioner needs to incorporate all available information. *Women and Mental Health* provides a comprehensive overview of the most prominent mental health problems in women today. Examining the physiological, social and psychological factors of mental illness, and providing an up-to-date perspective on the etiology of different disorders, the book will help mental health professionals formulate the best management plan for the individual. Covering issues including

perinatal psychiatric disorders, depression, eating disorders, schizophrenia, and alcohol and drug abuse - from a female perspective - Women and Mental Health will prove a valuable tool for all those working in the fields of mental health.

### **Sexual and Gender-Based Violence**

Pearson UK

"In the midst of unprecedented attention to gender based violence (GBV) globally, prompted in part by the #MeToo movement, this book provides a new analysis of how higher education cultures can be transformed. It offers reflections from faculty, staff and students about how change has happened and could happen on their campuses in ways that go beyond implementation of programmes and policies. Building on what is already known from decades of scholarship and practice in the US, and more recent attention elsewhere, this book provides an inter-disciplinary, international overview of attempts to transform higher education cultures in order to eradicate GBV.. Change happens because people act, usually with others. At the heart of transformative efforts lie collaborations between faculty, staff, students, activists and community organisations. The contributors to the book reflect on what makes for constructive, effective collaborations and how to avoid the common mistakes in working with others to end GBV. They consider what has worked to challenge the reluctance-or outright hostility-they have encountered in their work against GBV and how their collaborations have succeeded in transforming the ways we think about GV and what we do about it. Chapters focus on experiences in Canada, the US, England, Scotland, France and India to examine different approaches to tackling

GBV in higher education. They reveal the cultural variations in which GBV occurs as well as the similarities across cultures-that GBV is committed overwhelmingly by men against women and reflects a determination to assert masculine power. Together, they demonstrate that, to make higher education a safe environment for all, nothing short of a transformation is required"--

Managing Humanitarian Relief Edward Elgar Pub

This two-volume Handbook provides a major thematic overview of global sexualities, spanning each of the continents, and its study, which is both reflective and prospective, and includes traditional approaches and emerging themes. The Handbook offers a robust theoretical underpinning and critical outlook on current global, glocal, and 'new' sexualities and practices, whilst offering an extensive reflection on current challenges and future directions of the field. The broad coverage of topics engages with a range of theories, and maintains a multi-disciplinary framework. PART ONE: Understanding Sexuality: Epistemologies/Conceptual and Methodological Challenges PART TWO: Enforcing and Challenging Sexual Norms PART THREE: Interrogating/Undoing Sexual Categories PART FOUR: Enhancement Practices and Sexual Markets/Industries PART FIVE: Sexual Rights and Citizenship (And the Governance of Sexuality) PART SIX: Sexuality and Social Movements PART SEVEN: Language and Cultural Representation

### **Addressing Gender-based Violence in the Latin American and Caribbean Region**

Oxford University Press, USA

This book is an accessible guide to caring for survivors of sexual and

gender-based violence (SGBV). Sexual violence is broadly defined in order to include sexual assault, but also often forgotten subjects such as female genital cutting, sex trafficking, and military sexual violence. The average practitioner, gynecologist or otherwise, will undoubtedly encounter a victim of some sexual violence during their time in practice and this guide is designed to answer all questions on how to approach, treat, and understand a survivor of sexual violence. Written by a multidisciplinary team of medical, psychological, and legal experts, the book is organized into four sections. The first section begins with a scholarly analysis of trauma and how to discuss that trauma with patients. The second section covers types of violence and populations at risk, including intimate partner violence, sex trafficking, and LGBTQ considerations. The third section provides critical focus on the examination procedure, providing strategies for speaking to survivors and conducting a sensitive medical examination. Within each of these chapters, the reader will find experts sharing their tips, best practices, and understandings of exactly how trauma affects care. The final section covers medicolegal legal issues, providing a basic introduction to general legal processes regarding sexual violence matters in the US in order to serve as a resource for any practitioner presented with legal questions by a patient. This book gives a comprehensive overview of clinical care for survivors of SGBV. The clinical focus of this book goes beyond emergency room and crisis intervention protocol described in other books and makes it an ideal guide for all general health practitioners treating this population.

*Cities, Slums and Gender in the Global South* Oxford University Press, USA

"Picking up accounting as a language and as a skill will add credibility to your CV and enhance your employability. Any job role you may be involved with - from an HR manager, to investment banker, to a self-employed musician - they all require, and are done better with, a basic grasp and understanding of accounting to be able to make financially sound decisions on a daily basis. Warren Buffet is an example - not an accountant - but making a good use of accounting in his investment and business dealings to notable success"--.

**Service Delivery for Vulnerable Populations** Springer

"[This book] provides a comprehensive understanding of the opportunities for all of us working with vulnerable populations to develop thoughtful, workable programs. The topics presented are not limited to the severely mentally ill, but it is an encyclopedia of resources and creative options for service to veterans, the homeless, the elderly. This book challenges us to think creatively and develop programs and services for the people in our society who are most often overlooked and forgotten." Alan E. Siegel, Ed.D. Chief, Mental Health Service, MIT Assistant Clinical Professor of Psychology, Department of Psychiatry, Harvard Medical School "[This book is] the perfect primer for anyone seeking to understand the latest trends in psychiatric care for vulnerable people today." Ted Houghton Supportive Housing Network of New York "It is rare for a single book to discuss innovative practices that affect such a broad array of vulnerable groups, including children and families, older people and people with severe mental illness. Together,

these essays allow readers to identify similarities and differences with regard to the needs of these populations, the conditions that may exacerbate their problems, and the adequacy of the programs and services designed to address their needs. It also may help readers identify lessons from innovations targeted at one group that may be helpful in another policy arena." Michael K. Gusmano, PhD Research Scholar The Hastings Center Vulnerable populations typically present with multiple overlapping issues, such as poverty, substance abuse, mental illness, or other health issues that require varying services and treatments. This book provides students and professionals in health care and service delivery with innovative programs and models to address the needs of these vulnerable populations. This essential text offers new approaches to program design, service delivery, evaluation, and funding. Strategies for introducing these innovations-such as cross-system coordination and blended funding-are described in detail, using real, evidence-based programs from around the country as examples. Experts from across program delivery systems, as well as from academia and government, share their practice experience. Key features: Addresses innovative services for children and youth with multiple mental health and/or substance abuse needs Describes health care needs for LGBTQ youth and adults Examines housing issues for persons with psychiatric disabilities, veterans, and older adults Offers innovative program approaches for refugees, older adults, and the disabled Discusses the impact of new media, health literacy, and the consumer/survivor movement on service delivery

*A Guide to Federal Terms and Acronyms*  
Practical Action Pub

This book aims to bring together the pioneering research on gender based violence that has been conducted by the Centre for Gender and Violence Research at the School for Policy Studies, University of Bristol. Topics discussed include violence in young people's relationships, prostitution policy, disabled women's experiences of domestic violence, men as victims of domestic violence, feminist movements and methodological concerns. This book will have a wide appeal, as each individual chapter builds on and contributes to existing global and national concerns about gender based violence. The book starts with an exploration of key theoretical, conceptual and methodological issues in researching gender based violence, then moves on to look at specific national (UK) based empirical studies. The final section brings together a wide range of research from diverse contexts, ranging from China, Iran, India and refugee camps in Rwanda. The book will be an invaluable resource for researchers, students and practitioners who have an interest in this area, as well as for policymakers around the world. It will also be of interest to the general reader who wants to learn more about what is now a highly topical issue.

**Promoting Gender Equality Abroad**  
Oxfam

With contributions from a diverse array of international scholars, this edited volume offers a renewed understanding of gender-based violence (GBV) by examining its social and political dimensions in migration contexts. This book engages micro, meso, and macro levels of analysis by foregrounding a conceptualization of GBV that addresses

both its interpersonal and structural causes. Chapters explore how GBV frameworks and migration management intersect, bringing to the forefront the specific inequalities these intersections produce for migrant women. Drawing upon several disciplines, the authors engage in co-writing a critical engagement which proposes an original understanding of how the concepts of intersectionality, vulnerability and precarity speak to each other from a feminist perspective. This volume will be of interest to scholars/researchers and policymakers in Gender Studies, Migration and Refugee Studies, Sociology, Political Science, Trauma Studies, Human Rights and Socio-Legal Studies.

Where is the Money to Address Gender-based Violence? UNESCO Publishing

This book addresses sexual and gender-based violence (SGBV) against women from an international law point of view. It identifies the reasons behind SGBV against women with a specific focus on cultural practices that try to justify it and highlights the legal challenges related to the topic for both national and international justice systems. The seven chapters of the book are: i) Introduction ii) SGBV a global concern; iii) International legal protection; iv) Role of international institutions; v) Role of cultural factors and vi) Challenges vii) Conclusions. In the light of concerted global efforts to bring to an end, or at least severely contain SGBV against women, the book provides a future roadmap to the United Nations system, States, international institutions, multidisciplinary scholars, civil society organizations and other global actors. The book contains a Foreword by Peter Maurer, President of International Committee of the Red Cross (ICRC).

Routledge Handbook of International Criminology Edward Elgar Pub

The coronavirus (COVID-19) crisis, which has hit financial systems across Africa, is likely to deteriorate banks' balance sheets. The largest threat to banks pertains to their loan portfolios, since many borrowers have faced a sharp collapse in their income, and therefore have difficulty repaying their obligations as they come due. This could lead to a sharp increase in nonperforming loans (NPLs) in the short to medium term.

Gender-Based Violence in Migration International Monetary Fund

Eros of International Relations: Self-Feminizing and the Claiming of Postcolonial Chineseness is a distinctive work that explores the much-neglected Chinese perspective in broader international relations theory. Using the concept of "self-feminizing"—adoption of a feminine identity to oblige and achieve mutual caring as a relational strategy—this book argues that postcolonial actors have employed gendered identities in order to survive the squeezing pressure of globalization and nationalism in their own ways. Sovereign actors who have historically claimed to act on behalf of Chineseness have taken advantage of the images of femininity thrust upon them by transnational capitalism, the media, or intellectual thought. Shih illustrates the feminist potential for emancipation through a range of empirical examples, showing that women of various Chinese characteristics, acting on behalf of their nation, city, and corporations, reject the masculinization of their groups of belonging as remedy for inferiority or threat. Carried out effectively, Shih argues, actors who self-feminize have the potential to deconstruct the binaries of masculine competition and seek

alternative strategies under the postcolonial global order. *Eros of International Relations* is a welcome contribution that ties together revisionist yet friendly reflections on the current studies of postcolonialism, international relations, relational theory, China studies, cultural studies, and feminism. "Chih-yu Shih is one of the pioneers doing gender and international relations in China. His critical renovation of postcolonial feminism demonstrates that self-romanticization, non-solution, and inconsistency are plausible strategies that help us transcend the boundaries internalized by hegemonic discourse."

—Yingtao Li, Beijing Foreign Studies University, China "*Eros of International Relations* develops the potent idea of self-feminizing as a relational, caring, and emancipatory strategy employed by postcolonial actors in a globalized world. This book is a fascinating reflection on feminist, postcolonial, and non-Western international relations scholarship."

—Arlene B. Tickner, Universidad del Rosario, Colombia "Drawing on postcolonial feminism, Shih explores the power of self-feminizing as a strategy in world politics, which he illustrates with case studies from Chinese history. A must-read for students of international relations and China alike." —Pinar Bilgin, Bilkent University, Turkey

*The International Journal of Accounting*  
BRILL

This book examines the strength of laws addressing four types of violence against women—rape, marital rape, domestic violence, and sexual harassment—in 196 countries from 2007 to 2010. It analyzes why these laws exist in some places and not others, and why they are stronger or weaker in places where they do exist. The authors have compiled original data that allow them to test various

hypotheses related to whether international law drives the enactment of domestic legal protections. They also examine the ways in which these legal protections are related to economic, political, and social institutions, and how transnational society affects the presence and strength of these laws. The original data produced for this book make a major contribution to comparisons and analyses of gender violence and law worldwide.

*The Effects of School-Related Gender-Based Violence on Academic Performance* Routledge

The Routledge Handbook of International Criminology brings together the latest thinking and findings from a diverse group of both senior and promising young scholars from around the globe. This collaborative project articulates a new way of thinking about criminology that extends existing perspectives in understanding crime and social control across borders, jurisdictions, and cultures, and facilitates the development of an overarching framework that is truly international. The book is divided into three parts, in which three distinct yet overlapping types of crime are analyzed: international crime, transnational crime, and national crime. Each of these perspectives is then articulated through a number of chapters which cover theory and methods, international and transnational crime analyses, and case studies of criminology and criminal justice in relevant nations. In addition, questions placed at the end of each chapter encourage greater reflection on the issues raised, and will encourage young scholars to move the field of inquiry forward. This handbook is an excellent reference tool for undergraduate and graduate students with particular interests in research

methods, international criminology, and making comparisons across countries. *Labor, Global Supply Chains and the Garment Industry in South Asia* SAGE Publications

This first-of-its-kind work on elder abuse and mistreatment provides a comprehensive and up-to-date overview of the subject. Covering almost all regions of the world, it highlights different dimensions of elder abuse and mistreatment in terms of their prevalence, incidence, prevention, treatment, management and response from governments and civil society, academic and research communities, and society in general. Written by international specialists from various disciplinary and presenting the latest findings and data, the handbook includes sections on the Americas; the Caribbean; Europe; Central, West and South Asia; East Asia and Asia-Pacific; and Africa. The chapters offer clarity on the concept and forms of elder abuse and neglect, discuss research methodology, and provide policy options, legislative solutions and programmatic responses to give relief to older people as victims of abuse and neglect as well as to deal with the perpetrators. This book is intended for a wide range of students and researchers interested in aging, from sociology, to social work, community medicine, public health, clinical psychology, and human rights/law.

**Multinational Corporations and International Law: Accountability and Compliance Issues in the Petroleum Industry** SAGE

This edited book brings together the voices and insights of survivors, practitioners, educators and researchers working to prevent and minimise the harms of gender-based violence, with a

specific focus on equipping health professionals and social workers to support victim-survivors. Practitioners can, and often do, play a critical role supporting victim-survivors of gender-based violence; however, this work has historically been carried out by those in specialist roles and there remains gaps and inconsistencies in education and training for qualifying and post-qualified professionals. This book makes a valuable contribution to addressing these gaps. It provides practitioners with a comprehensive resource on contemporary debates and research in the field of gender-based violence. To support readers' learning, each chapter contains reflective exercises and draws clear links between research, theory and practice. The book is structured into four sections. The first section considers the 'rise' of gender-based violence in policy and practice, and questions to what extent this once marginalised perspective has become embedded in health and social work training and education. The second section of the book explores some of the expressions, contexts and implications of gender-based violence. Each chapter considers the role of health care professionals and social workers and invites the reader to reflect on their (potential) role in these areas. The third section of the collection focuses on one of the most common forms of gender-based violence that health and social work professionals are likely to encounter: physical, psychological, sexual and financial violence by an intimate partner, who may also be a parent. Finally, the fourth section showcases innovative responses to supporting victim-survivors and challenging systems that contribute to gender inequality. The intention of this book is to equip health care

professionals and social workers with critical, practical and ethical resources to help them work with victim-survivors

and, where possible, engage in transformative efforts to end the harms of gendered inequalities and violence.
