Alif the  
Unseen John  
Benjamins  
Publishing  
Company

Over the last  
century there  
has been a  
complete  
transformation  
of the fashion  
system. The  
unitary top-  
down fashion  
cycle has

been replaced  
by the  
pulsations of  
multiple and  
simultaneous  
styles, while  
the speed of  
global  
production  
and circulation

has become ever faster and more complex. Running in tandem, the development of artificial fibres has revolutionized the composition of clothing, and the increased focus on youth, sexuality, and the body has radically changed its design. From the 1920s flapper dress to debates over the burkini, fashion has continued to be deeply involved in society's larger issues.

Drawing on a wealth of visual, textual and object sources and illustrated with 100 images, *A Cultural History of Dress and Fashion in the Modern Age* presents essays on textiles, production and distribution, the body, belief, gender and sexuality, status, ethnicity, and visual and literary representations to illustrate the diversity and cultural significance of dress and

fashion in the period.

**Demand-Driven Approaches in Vocational Education and Training**

Grand Central Publishing  
Hi, I'm Keshav, and my life is screwed. I hate my job and my girlfriend left me. Ah, the beautiful Zara. Zara is from Kashmir. She is a Muslim. And did I tell you my family is a bit, well, traditional? Anyway, leave that. Zara and I broke up four years ago. She moved on in life. I didn't.

I drank every night to forget her. I called, messaged, and stalked her on social media. She just ignored me. However, that night, on the eve of her birthday, Zara messaged me. She called me over, like old times, to her hostel room 105. I shouldn't have gone, but I did ... and my life changed forever. This is not a love story. It is an un-love story. From the author of Five Point Someone and 2 States, comes a fast-

paced, funny and unputdownable thriller about obsessive love and finding purpose in life against the backdrop of contemporary India. The Girl In Room 105 Hodder & Stoughton Relatively high wages and the opportunity to be part of an upscale, globalized work environment draw many in India to the call center industry. At the same time, night shift employment presents

women, in particular, with new challenges alongside the opportunities. This book explores how beliefs about what constitutes "women's work" are evolving in response to globalization. Working the Night Shift is the first in-depth study of the transnational call center industry that is written from the point of view of women workers. It uncovers how call center employment

affects their lives, mainly as it relates to the anxiety that Indian families and Indian society have towards women going out at night, earning a good salary, and being exposed to western culture. This timely account illustrates the ironic and, at times, unsettling experiences of women who enter the spaces and places made accessible through call center work. Visit the author's website at

<http://www.working-the-nightshift.com> and facebook group.

### **A Pillow**

**Book** Kush Aryan Gupta  
A tour-de-force of a debut that blends classic fantasy -- the fascinating, frightening, sometimes-invisible world of the djinn -- that's genies to some of us -- with the 21st-century reality of a super-hacker in mortal danger in a repressive security state on the Arabian Gulf. Alif (that's his handle) is a

brilliant young superhacker working out of his mother's small apartment, and his computer has just been breached. While Alif scrambles to protect his clients -- dissidents and outlaws alike, whoever needs to hide their digital traces, he and his friends realize that they've been found by 'the Hand' -- maybe a person, maybe a program, but definitely able to find anyone, and

that could lead to prison, or worse. Alif, with the help of his childhood friend Dina, an ancient book sent to him in secret by his lost love (who may be frighteningly connected to the Hand) and a terrifying protector who almost looks human, must go underground - or rather, find a way into the hidden world of the djinn. They wrote the mysterious book centuries ago, and have knowledge that might just

allow Alif to infiltrate the most sophisticated information technology the world has ever seen, and perhaps save himself, his loved ones, and freedom itself. With shades of Neil Gaiman, Philip Pullman, William Gibson, and the timeless *Thousand and One Nights*, *Alif the Unseen* is a tour-de-force debut with major potential -- a masterful, addictive blend of the ancient and the more-

than-modern, smuggled inside an irresistible page-turner. *Gray Matter* Springer  
The multicultural world of today is often said to be marked by a certain kind of exoticization: a "fetishizing process", as Graham Huggan has called it, which separates a "first world" from a "third world", the Occident from the Orient. The essays collected here re-assess this tendency, not least by

focusing on the kinds of intellectual tourism and dilettantism to which it has given rise. The wider context of these analyses is a postcolonial scenario where literatures and languages can move from the “exotic” to the comparatively “familiar” space of contemporary writings; where an exotic mythos can live on into the familiar present; and where certain perceptions and representation

s of peoples, of literatures, and of languages have turned exoticization and familiarization into global modes of mass-cultural consumption. Especially by exploring the liminalities between different cultures, this collection manages to trace both the history and the politics of exoticist representation and, in so doing, to make a significant critical intervention.

Viewing  
Politics**

Penguin  
Misunderstandings are often perceived as something to be avoided yet delineate an integrative part of everyday work. This book addresses the role that misunderstandings play in collaborative work and, above all, their effects on the organisational result. As exemplified by project collaboration across three offices of a multinational

corporation in India, Frauke Mörike explores how misunderstandings shape the organisational system and why they prove not only necessary but even productive for organisational functioning. In doing so, she offers new ways to think about collaboration and establishes 'misunderstanding' as a key factor of insight for the field of organisational research. *Must I Go* Stanford

University Press Mumbai is the city of dreams—where every street is paved with gold. A million stories from which six stories tell what it is to be HUMAN in a big city, where humans get together, make compromises, meet, depart and, in some cases, even stay together. **Subculture** Bloomsbury Publishing In Cory Doctorow's wildly successful *Little Brother*, young Marcus Yallow was

arbitrarily detained and brutalized by the government in the wake of a terrorist attack on San Francisco—an experience that led him to become a leader of the whole movement of technologically clued-in teenagers, fighting back against the tyrannical security state. A few years later, California's economy collapses, but Marcus's hacktivist past lands him a job as webmaster for

a crusading politician who promises reform. Soon his former nemesis Masha emerges from the political underground to gift him with a thumbdrive containing a Wikileaks-style cable-dump of hard evidence of corporate and governmental perfidy. It's incendiary stuff—and if Masha goes missing, Marcus is supposed to release it to the world. Then Marcus sees Masha being

kidnapped by the same government agents who detained and tortured Marcus years earlier. Marcus can leak the archive Masha gave him—but he can't admit to being the leaker, because that will cost his employer the election. He's surrounded by friends who remember what he did a few years ago and regard him as a hacker hero. He can't even attend a demonstration without being dragged

onstage and handed a mike. He's not at all sure that just dumping the archive onto the Internet, before he's gone through its millions of words, is the right thing to do. Meanwhile, people are beginning to shadow him, people who look like they're used to inflicting pain until they get the answers they want. Fast-moving, passionate, and as current as next week, Homeland is every bit the

equal of Little Brother—a paean to activism, to courage, to the drive to make the world a better place. At the Publisher's request, this title is being sold without Digital Rights Management Software (DRM) applied. The Bachelorette Bucket List: Crushed & Crumpled Liberty Publication "Balancing Acts is a must-read for social scientists, policy experts, and educators interested in addressing

the achievement gap between minority and majority students. This unique comparative study of multi-racial schools in the US and the UK considers through a new lens the impact of peer status on educational achievement for whites, Indians, and blacks. Never has expertise on the second-generation, racial and ethnic boundaries, youth culture, cultural consumption,

and education been so skillfully brought together. And best of all, this signal contribution offers practical and sensible policy recommendations for addressing some of the causes of low educational performance." —Michele Lamont, author of *The Dignity of Working Men: Morality and the Boundaries of Race, Class, and Immigration* "This important comparative

study skillfully unpacks the concept of culture and demonstrates with considerable cogency the role played by youth culture in shaping immigrant children's uneven educational achievement. *Balancing Acts* rightly highlights children's agency in negotiating the pressures of different identities and offers several most valuable recommendations."—Bhikhu Parekh, House of Lords, author of

*Rethinking Multiculturalism* "This important study breaks new empirical ground and brings much needed conceptual clarity to the sociological study of culture, identity, and the schooling of the children of immigrants in the two defining global cities of our era. It achieves a marvelous balance—between London and New York, between institutions, social structures, and human

agency, and between various immigrant-origin groups on both sides of the Atlantic. It is a must read for anyone interested in learning what the best of sociological research has to offer to us to elucidate one of the most relevant issues of our times."—Marcelo M. Suárez-Orozco, Institute for Advanced Study, Princeton, NJ "If this book doesn't convince us that adolescents'

taste in music and style of dress have more to do with their quest for peer status than their attitudes toward school and achievement, I'm not sure what will. The second-generation immigrant youth in *Balancing Acts* add to the chorus of compelling young voices forcing us to reconsider how we think about the impact of youth cultures on student achievement. *Warikoo's* careful

attention to the meanings young people attach to contemporary urban music and style should be required reading for anyone interested in the world of adolescents." - Karolyn Tyson, *Sociology*, University of North Carolina at Chapel Hill  
 "Warikoo does an excellent job describing peer culture and its complex role in the everyday lives of teenagers in London and New York City. This book is essential

reading for educators, scholars, and, of course, students."—Margaret M. Chin, author of *Sewing Women: Immigrants and the New York City Garment Industry* "This provocative and timely book offers a refreshing perspective on the relationship of second-generation immigrants and youth culture. *Warikoo* makes a bold argument regarding peer culture, status and

academic achievement that is sure to take current discourse into a whole new direction."—Gi

lberto Q. Conchas, author of *The Color of Success*

**How Opal Mehta Got Kissed, Got Wild, and Got a Life**

Univ of California Press  
First Published in 2002. It is easy to see that we are living in a time of rapid and radical social change. It is much less easy to grasp the fact that such change

will inevitably affect the nature of those disciplines that both reflect our society and help to shape it. Yet this is nowhere more apparent than in the central field of what may, in general terms, be called literary studies. 'New Accents' is intended as a positive response to the initiative offered by such a situation. Each volume in the series will seek to encourage rather than

resist the process of change. To stretch rather than reinforce the boundaries that currently define literature and its academic study.

**Lovely Planet**

Bloomsbury Publishing  
Speculative fiction from the acclaimed bestselling author of *Exit, Pursued by a Bear and Star Wars: Ahsoka*. Victoria-Margaret is the crown princess of the empire, a direct descendent of Victoria I, the

queen who changed the course of history. The imperial tradition of genetically arranged matchmaking will soon guide Margaret into a politically advantageous marriage. But before she does her duty, she'll have one summer of freedom and privacy in a far corner of empire. Posing as a commoner in Toronto, she meets Helena Marcus, daughter of one of the empire's greatest

placement geneticists, and August Callaghan, the heir to a powerful shipping firm currently besieged by American pirates. In a summer of high-society debutante balls, politically charged tea parties, and romantic country dances, Margaret, Helena, and August discover they share an extraordinary bond and maybe a one-in-a-million chance to have what

they want and to change the world in the process. Set in a near-future world where the British Empire was preserved not by the cost of blood and theft but by the effort of repatriation and promises kept, *That Inevitable Victorian Thing* is a surprising, romantic, and thought-provoking story of love, duty, and the small moments that can change people and the world. ★ "This witty and romantic

story is a must-read."—SLJ, starred review ★ "Compelling and unique—there's nothing else like it."—Booklist, starred review. ★ "[A] powerful and resonant story of compassion, love, and finding a way to fulfill obligations while maintaining one's identity."—PW, starred review *The Royal Abduls* BRILL Lacing cultural criticism, Victorian literature, and

storytelling together, "TOO MUCH spills over: with intellect, with sparkling prose, and with the brainy arguments of Vorona Cote, who posits that women are all, in some way or another, still susceptible to being called too much." (Esmé Weijun Wang) A weeping woman is a monster. So too is a fat woman, a horny woman, a woman shrieking with laughter. Women who are one or

more of these things have heard, or perhaps simply intuited, that we are repugnantly excessive, that we have taken illicit liberties to feel or fuck or eat with abandon. After bellowing like a barn animal in orgasm, Hoovering a plate of mashed potatoes, or spraying out spit in the heat of expostulation, we've flinched-ugh, that was so gross. I am so gross. On rare

occasions, we might revel in our excess--belting out anthems with our friends over karaoke, perhaps--but in the company of less sympathetic souls, our uncertainty always returns. A woman who is Too Much is a woman who reacts to the world with ardent intensity is a woman familiar to lashes of shame and disapproval, from within as well as without. Written in the

tradition of Shrill, Dead Girls, Sex Object and other frank books about the female gaze, TOO MUCH encourages women to reconsider the beauty of their excesses--emotional, physical, and spiritual. Rachel Vorona Cote braids cultural criticism, theory, and storytelling together in her exploration of how culture grinds away our bodies, souls, and sexualities, forcing us into

smaller lives than we desire. An erstwhile Victorian scholar, she sees many parallels between that era's fixation on women's "hysterical" behavior and our modern policing of the same; in the space of her writing, you're as likely to encounter Jane Eyre and Lizzie Bennet as you are Britney Spears and Lana Del Rey. This book will tell the story of how women, from then and now, have learned to draw power

from their reservoirs of feeling, all that makes us "Too Much."

Forest Avenue Press  
A New York Times, Wall Street Journal, Los Angeles Times, and IndieBound bestseller  
Finalist for the Colby Award  
A new, revised and updated edition of a modern classic of foreign policy, a harrowing exploration of the collapse of American diplomacy and the abdication of global leadership, by

the winner of the 2018 Pulitzer Prize in Public Service. US foreign policy is undergoing a dire transformation, forever changing America's place in the world. Institutions of diplomacy and development are bleeding out after deep budget cuts; the diplomats who make America's deals and protect its citizens around the world are walking out in droves. Offices across the State

Department sit empty, while abroad the military-industrial complex has assumed the work once undertaken by peacemakers. We're becoming a nation that shoots first and asks questions later. In an astonishing journey from the corridors of power in Washington, DC, to some of the most remote and dangerous places on earth—Afghanistan, Somalia, and North Korea among them—acclai

med investigative journalist Ronan Farrow illuminates one of the most consequential and poorly understood changes in American history. His firsthand experience as a former State Department official affords a personal look at some of the last standard bearers of traditional statecraft, including Richard Holbrooke, who made peace in Bosnia and died while trying to do so in Afghanistan. Drawing on recently unearthed documents, and richly informed by rare interviews with whistle-blowers, a warlord, and policymakers—including every living former secretary of state from Henry Kissinger to Hillary Clinton to Rex Tillerson—and now updated with revealing firsthand accounts from inside Donald Trump’s confrontations with diplomats during his impeachment and candid testimonials from officials in Joe Biden’s inner circle, War on Peace makes a powerful case for an endangered profession. Diplomacy, Farrow argues, has declined after decades of political cowardice, shortsightedness, and outright malice—but it may just offer America a way out of a world at war. [Amritsar to Lahore](#) Tor Teen

American security officer Clark Miller is playing a dangerous game. In order to track terrorist Anwar Khan from Indonesia to the tribal areas of Pakistan, Clark is embroiled in political volatility and religious fanaticism. Now working in Pakistan, he has learned the language, history, and culture of the conservative Muslim country. He has also made the mistake of sleeping with

the wrong local women, frequenting the wrong brothels, and trusting the wrong advisors. His appreciation for the Pakistanis and their culture matches his hatred of religious extremism and exploitation. Miller inherited his relentless determination from an abusive and violent father. The more Clark tries to exorcise his paternal demons, the more he recognizes his

father in his own behavior. Clark has to embrace his father's violence to track Khan down and find justice. But time is running out. Clark's investigations of Khan have drawn unwanted attention. Pakistani security forces have started investigating Clark, and Anwar Khan has targeted Miller for assassination. When a young prostitute offers to sell information on Khan's whereabouts,

Clark must act quickly. It is now a race against time, money, and loyalties. If the Pakistani security forces don't get him, the terrorists will. 'Gray Matter' is Marvin Gray's the fast-paced thriller sequel to 'Gray Areas.'

### **Working Misunderstandings**

Bloomsbury Publishing  
 Ramiza Shamoun  
 Koya reveals the devastating cost of anti-Muslim sentiment in The Royal Abduls, her

debut novel about an Indian-American family. Evolutionary biologist Amina Abdul accepts a post-doc in Washington, DC, choosing her career studying hybrid zones over a faltering West Coast romance. Her brother and sister-in-law welcome her to the city, but their marriage is crumbling, and they soon rely on her to keep their son company. Omar, hungry to understand his cultural

roots, fakes an Indian accent, invents a royal past, and peppers his aunt with questions about their cultural heritage. When he brings an ornamental knife to school, his expulsion triggers a downward spiral for his family, even as Amina struggles to find her own place in an America now at war with people who look like her. With The Royal Abduls, Ramiza Koya ignites the

canon of post-9/11 literature with a deft portrait of second-generation American identity.

**Transnational America**

Notion Press  
In recent years, menswear has moved decisively center stage. *Menswear Revolution* investigates the transformation of men's fashion through the lens of shifting masculinities, examining how its increasing diversity has created new

ways for men to explore and express their identities. Harnessing sustained market growth and creative dynamism on the runway, ground-breaking designers from Raf Simons and Hedi Slimane to Craig Green have revolutionized the discipline with their bold re-imaginings of the male wardrobe. Analysing the role of the media in shaping attitudes to men's fashion, *Menswear Revolution*

studies how competing narratives of masculinity are reflected in popular discourse. Taking us from the mod and peacock revolutions of the 1960s to the new wave aesthetics of the 1980s, the book explores historical precedents for today's menswear scene - and looks at the evolution of the 'ideal' male body, from the muscular to the lean and boyish. Combining interviews with fashion

professionals with close analyses of garments and advertising, *Menswear Revolution* provides an authoritative account of menswear design today. Highlighting its relationship to changing concepts of gender, the book provides a much-needed update to scholarship on masculinity, fashion and the body.

**Assertive Religious Identities**

Emblem Editions  
For the international

cast of contributors to this volume being “in fashion” is about self-presentation; defining how fashion is presented in the visual, written, and performing arts; and about design, craft manufacturing, packaging, marketing, and archives.

Routledge  
An ethnography of urban women television viewers in

India, and their reception of particular shows, especially in relation to issues of gender and nation.

Touchstone Tales Duke University Press

“One of our major novelists” (Salman Rushdie) tells the story of a woman reflecting on her uncompromising life, and the life of a former lover, in this provocative novel. “Yiyun Li is one of my favorite writers, and

Must I Go is an extraordinary book.”—Meg Wolitzer, New York Times bestselling author of *The Female Persuasion* and *The Interestings* NAMED ONE OF THE BEST BOOKS OF THE YEAR BY MARIE CLAIRE AND ESQUIRE Lilia Liska has shrewdly outlived three husbands, raised five children, and seen the arrival of seventeen grandchildren. Now she has turned her keen attention to the diary of a long-

forgotten man named Roland Bouley, with whom she once had a fleeting affair. Increasingly obsessed with Roland's intimate history, Lilia begins to annotate the diary with her own rather different version of events, revealing the surprising, long-held secrets of her past. She returns inexorably to the memory of her daughter Lucy. This is a novel about life in all its messy glory, and of a life

lived, by the extraordinary Lilia, absolutely on its own terms. With great candor and insight, Yiyun Li navigates the twin poles of grief and resilience, loss and rebirth, that compass a human heart. *War on Peace: The End of Diplomacy and the Decline of American Influence* Bloomsbury Publishing Muthuveeran Ramasamy shows that the formal way of vocational education and training (VET)

in rural areas often ignores the illiterate, the less educated, and the poor. The author demonstrates that VET programs need to be demand-driven and consider the socio-economic aspects of particular regions.

Therefore, the significance of the study at grassroots level helps customize VET programs to respond to the demand of the individuals' vocational training needs of rural people by keeping their endogenous needs at the centre of vocational skill

development processes. The findings and lessons learnt from action research are also intensively discussed as guiding principles of demand-driven approaches from the learners'/social perspectives.
