On a warm Autumn afternoon, Denmark's largest amusement park, Tivoli Gardens, is devastated by a terrorist attack that leaves more than 1,200 dead. No one claims responsibility for the attack, and seven months later the nation is still reeling and the police have no leads. Police Lieutenant Lene Jensen has been assigned to the frustrating case from the beginning. When she receives a desperate phone call from a Muslim woman who later turns up dead, she sees a connection to the Tivoli bombing. Lene's initial investigation suggests that the woman was unknowingly part of a secret research project conducted by the government, and as she digs deeper, she is met with increasing resistance from her superiors. Together with private detective Michael Sander, she tries to get to the bottom of the complicated case--only to realize that someone knows a lot more than they are letting on. With the threat of another attack looming, Sander and Jensen must race against the clock to save lives and restore peace of mind to the people of the idyllic country.

There were five casualties reported and one survivor. Just two weeks before, Hitler invaded Poland. The Commercial Year Book

Based on never previously explored personal accounts and archival documentation, this book examines life and death in the Theresienstadt ghetto, seen through the eyes of the Jewish victims from Denmark. "How was it in Theresienstadt?" Thus asked Johan Grün rhetorically when he, in July 1945, published a short text about his experiences. The successful flight of the majority of Danish Jewry in October 1943 is a well-known episode of the Holocaust, but the experience of the 470 men, women, and children that were deported to the ghetto has seldom been the object of scholarly interest. Providing an overview of the Judenaktion in Denmark and the subsequent deportations, the book sheds light on the fate of those who were arrested. Through a micro-historical analysis of everyday life, it describes various aspects of social and daily life in proximity to death. In doing so, the volume illuminates the diversity of individual situations and conveys the deportees' perceptions and striving for survival and 'normality'. Offering a multi-perspective and international approach that places the case of Denmark into the broader Jewish experience during the Holocaust, this book is invaluable for researchers of Jewish studies, Holocaust and genocide studies, and the history of modern Denmark.
