XIII Mystery - Volume 13 - Judith Warner Skyhorse

"Oz conjures up a fairy story in which we may well recognize ourselves, our history and our nations . . . be prepared simply to be enchanted." —The Guardian In a gray and gloomy village, all of the animals—from dogs and cats to fish and snails—disappeared years before. No one talks about it and no one knows why, though everyone agrees that the village has been cursed. But when two children see a fish—a tiny one and just for a second—they become determined to unravel the mystery of where the animals have gone. And so they travel into the depths of the forest with that mission in mind, terrified and hopeful about what they may encounter. From the internationally

bestselling author Amos Oz, this is a hauntingly beautiful fable for both children and adults about tolerance, loneliness, denial, and remembrance. "In this swiftly moving fable, Oz creates palpable tension with a repetitive, almost hypnotic rhythm and lyrical language that twists a discussion-provoking morality tale into something much more enchanting." —Booklist "Short, poetic, and haunting, the book operates on a plane of mystery somewhere between fable and fairy tale . . . The great beauty of this story is the rhythm and clarity of its evocative language." —New York Journal of Books "From the whispered tales of a local monster to the brash, spunky heroes on a quest, internationally acclaimed Israeli author Oz litters his story with fairy-tale tropes that give this narrative a fable-like quality; the atmosphere is intriguingly secretive and shadowed, but the prose is measured and accessible and the length manageable." —The Bulletin **The Syntax of Arabic** Editions Auzou Includes, 1982-1995: Les Livres du mois, also published separately.

Suddenly in the Depths of the Forest Penguin UK

This book posits a universal syntactic constraint (FPC) for code switching, using as its basis a study of different types of code-switching between French, Moroccan Arabic and Standard Arabic in a language contact situation. After presenting the theoretical background and linguistic context under study, the author closely examines examples of syntactic constraints in the language of functional bilinguals switching between French and forms of Arabic, proposing that this hypothesis can also be applied in other comparable language contact and translanguaging

contexts worldwide. This book will be of interest to students and scholars of French, Arabic, theoretical linguistics, syntax and bilingualism.
