Clothing in the North-West provinces of the Roman empire Springer
Tang dynasty (618–907) China hummed with cosmopolitan trends. Its capital at Chang'an was the most populous city in the world and was connected via the Silk Road with the critical markets and thriving cultures of Central Asia and the Middle East. In *Empire of Style*, BuYun Chen reveals a vibrant fashion system that emerged through the efforts of Tang artisans, wearers, and critics of clothing. Across the empire, elite men and women subverted regulations on dress to acquire majestic silks and au courant designs, as shifts in economic and social structures gave rise to what we now recognize as precursors of a modern fashion system: a new consciousness of time, a game of imitation and emulation, and a shift in modes of production. This first book on fashion in premodern China is informed by archaeological sources—paintings, figurines, and silk artifacts—and textual records such as dynastic annals, poetry, tax documents, economic treatises, and sumptuary laws. Tang fashion is shown to have flourished in response to a confluence of social, economic, and political changes that brought innovative weavers and chic court elites to the forefront of history.

Empire of Style Oxford University Press
A memoir by the internationally famous fashion designer and style icon Mention the name "Betsey Johnson" and almost every woman from the age of 15 to 75 can rapturously recall a favorite dress or outfit; whether worn for a prom, a wedding, or just to stand out from the crowd in a colorful way. They may also know her as a renegade single mom who palled around with Edie Sedgwick, Twiggy, and The Velvet Underground, or even as a celebrity contestant on *Dancing with the Stars*. Betsey is also famous for her iconic pink

stores (she had 65 shops across the US) and for her habit of doing cartwheels and splits down the runway at the close of her fashion shows. Throughout her decades-long career, she's taken pride in producing fun but rule-breaking clothing at an accessible price point. What they might not know is that she built an empire from scratch, and brought stretch clothing to the masses in the 80s and 90s. Betsey will take the reader behind the tutu and delve deeply into what it took to go from a white picket fence childhood in Connecticut to becoming an internationally known force in a tough, competitive business. The book will feature Betsey's candid memories of the fashion and downtown scene in the 60s and how she started her own business from the ground up after designing successfully for multiple other companies. She will discuss that business's ups and downs and reinventions (including bankruptcy), and her thoughts on body image, love, divorce, men, motherhood, and her bout with breast cancer. Betsey will be richly illustrated with many of her landmark clothes, fashion sketches, and personal photos--making the book the perfect memento and gift for every girl (of any age) for whom Betsey is, as a recent *New York Times* profile noted, "a role model still."

Empire's Twilight Simon and Schuster
The cofounder of True Religion Brand Jeans, Kym Gold uses her story to serve up a firm dose of life and career lessons that helped her build a multimillion-dollar fashion brand from the ground up. Kym Gold's mantra, "never settle for a no; always look for a yes," is what led her to co-create True Religion Brand Jeans, a major retail clothing company that sold for close to a billion dollars in 2013. In *Gold Standard*, Kym finally gives her side of the story of how the once fledgling jeans company that nobody wanted, went on to become a giant revolutionizing player in the fashion industry. As a woman in the boys' club world of the fickle fashion business, Kym armed herself and became one of True Religion's majority shareholders and their lead female clothing designer. On Valentine's Day in 2007, she was served divorce papers by her then husband and had her company ripped from under her—all within an hour. Since then, she has reestablished her place in the industry and catapulted herself into the coveted 1 percent of the richest Americans. In *Gold Standard*, Kym's savvy business and fashion branding experience of thirty years gives a behind-the-scenes look into the always changing fashion industry. It also mixes in her compelling personal journey, including her marriage to Mark Burnett before he became TV's biggest mega producer, a compassionate view for women of the pressures of balancing a career, finances, and family. Kym motivates readers to throw the gold gloves on and put up a fight.

Empire's New Clothes Princeton University Press

In the wake of Brexit, the Commonwealth has been identified as an important body for future British trade and diplomacy, but few know what it actually does. How is it organized and what has held it together for so long? How important is the Queen's role as Head of the Commonwealth? Most importantly, why has it had such a

troubled recent past, and is it realistic to imagine that its fortunes might be reversed? In *The Empire's New Clothes*,? Murphy strips away the gilded self-image of the Commonwealth to reveal an irrelevant institution afflicted by imperial amnesia. He offers a personal perspective on this complex and poorly understood institution, and asks if it can ever escape from the shadow of the British Empire to become an organization based on shared values, rather than a shared history.

By the 1780s in the city of Barcelona alone, more than 150 factories shipped calicoes to every major city in Spain and across the Atlantic. This book narrates the lives of families on both sides of the Atlantic who profited from the craze for calicoes, and in doing so helped the Spanish empire to flourish in the eighteenth century.

Lady's Realm Philip Wilson Publishers
In this powerful cultural critique, Ariel Dorfman explores the political and social implications of the smiling faces that inhabit familiar books, comics, and magazines. He reveals the ideological messages conveyed in works of popular culture such as the Donald Duck comics, the Babar children's books, and Reader's Digest magazine. *The Empire's Old Clothes* was widely praised when it was first published in 1983. This edition, including a new preface by the author, makes a contemporary classic newly available.

As Obama nears the middle of his first-term as president Paul Street assesses his performance against the expectations of his supporters. While mainstream journalists have noted discrepancies between Obama's original vision and reality, Paul Street uniquely measures Obama's record against the expectations of the truly progressive agenda many of his supporters expected him to follow. Taken together, the list of Obama's weakened policies is startling: his business-friendly measures with the economy, the lack of support for the growing mass of unemployed and poor, the dilution of his health reform agenda, the passage of a record-setting Pentagon budget, and escalation of US military violence in Afghanistan, Pakistan, Yemen, and Somalia. Street's account reveals these and many other indications of how deeply beholden Obama is to existing dominant domestic and global hierarchies and doctrines.

Navy and Army Illustrated Bloomsbury Publishing

This work focuses on the efforts toward reforming women's dress that took place in Europe and America in the latter half of the 18th century and the first decade of the 20th century, and the types of garments adopted by women to overcome the challenges posed by fashionable dress. It considers the many advocates for reform and examines their motives, their arguments for change, and how they promoted improvements in women's fashion. Though there was no single overarching dress reform movement, it reveals similarities among the arguments posed by diverse groups of reformers, including especially the equation of reform with an ideal image of improved health. Drawing on a variety of primary and secondary sources in the USA and Europe - including the popular press, advice books for women, allopathic and alternative medical literature, and books on aesthetics, art, health, and physical education - the text makes a significant contribution to costume studies, social history, and women's studies.

A Thirst for Empire London : W. Heinemann ; New York : C. Scribner's sons
During the nineteenth and early twentieth centuries the production of dress shifted dramatically from being predominantly hand-crafted in small quantities to machine-manufactured in bulk. The

increasing democratization of appearances made new fashions more widely available, but at the same time made the need to differentiate social rank seem more pressing. In this age of empire, the coding of class, gender and race was frequently negotiated through dress in complex ways, from fashionable dress which restricted or exaggerated the female body to liberating reform dress, from self-defining black dandies to the oppressions and resistances of slave dress. Richly illustrated with over 100 images and drawing on a plethora of visual, textual and object sources, *A Cultural History of Dress and Fashion in the Age of Empire* presents essays on textiles, production and distribution, the body, belief, gender and sexuality, status, ethnicity, and visual and literary representations to illustrate the diversity and cultural significance of dress and fashion in the period.

An unofficial guide to *EMPIRE*, the runaway hit of the 2014-15 television season. *Empire* is the breakout, network television hit of 2015—from its opening night, viewers were riveted by the story of record company magnate Lucious Lyon and his family, and the struggle for control over *Empire* Entertainment. As the second season approaches this September, *Empire: The Unauthorized Untold Story* tells you everything you need to know about this powerful drama. You'll get full backgrounds on all the major players, including the real-life entertainment icons on whom their stories are based. You'll learn about the music and fashions that helped drive the show's success. And you'll get a hint of what the second season might hold as show creators Lee Daniels and Danny Strong prepare to build on their phenomenal opening act.

The Empire Has No Clothes Bloomsbury Publishing

Between 1850 and 1900 fashion in Paris became an art form in itself, its designers inspired to creations of ever greater elegance and exoticism by the examples of the Old Masters and the popular painters of the day. But as art inspired fashion, so fashion served as a muse for art: painters from Courbet to Whistler, from Manet to Vuillard borrowed the poses of their models from the fashion plates of the day, and embraced the intimate scene - a walk in the garden, a visit from a friend - so typical of the genre. The dialogue between fashion and art is illustrated here by some 120 paintings - works by Ingres, Tissot, Renoir, Manet, Monet, Seurat and Degas among them - and a clutch of hitherto unpublished photographs from the recently discovered archive of Disderi.

How to Start a Clothing Empire Courier Corporation

Clothing styles from all classes during the Byzantine Empire are depicted here in more than 80 drawings. Included are examples of royal wedding garb, a shepherd in a short tunic, a court dancer, a court dignitary, a merchant, a naval officer, body armor of Roman warriors, a priest, and the robes of the Emperor Constantine. Captions accompany the illustrations.

How the global tea industry influenced the international economy and the rise of mass consumerism Tea has been one of the most popular commodities in the world. Over centuries, profits from its growth and sales funded wars and fueled colonization, and its cultivation brought about massive changes—in land use, labor systems, market practices, and social hierarchies—the effects of which are with us even today. *A Thirst for Empire* takes a vast and in depth historical look at how men and women—through the tea industry in Europe, Asia, North America, and Africa—transformed global tastes and habits and in the process created our modern consumer society. As Erika Rappaport shows, between the seventeenth and twentieth centuries the boundaries of the tea industry and the British Empire overlapped but were never identical, and she highlights the economic, political, and cultural forces that enabled the British Empire to dominate—but never entirely control—the worldwide production, trade, and consumption of tea. Rappaport delves into how Europeans adopted, appropriated, and altered Chinese tea culture to build a widespread demand for tea in Britain and other global markets and a plantation-based economy in South Asia and Africa. Tea was among the earliest colonial industries in which merchants, planters, promoters, and retailers used imperial resources to pay for global advertising and political lobbying. The commercial model that tea inspired still exists and is vital for understanding how politics and publicity influence the international economy. An expansive and original global history of imperial tea, *A Thirst for Empire* demonstrates the ways that this fluid and powerful enterprise

helped shape the contemporary world.

Can Imperial Jewelry and Couture Survive Human Women? Take an inside look at the styles and fashions of jewelry and couture from within the Alliance Empire. Dive in and see how newly arrived humans are shaking the Empire with their subtle, and not so subtle, takes on Imperial fashions. This book briefly explains the role of jewelry and clothing within the Alliance Empire and demonstrates how human women are pushing these traditional roles in different directions, both for the better as well as for the worse. Will human women conform after a time or will they continue to drive Alliance jewelry and fashions to where it no longer plays these traditional and complex roles in Imperial society? The Renaissance Alliance Series is set in a fictional future where humans are small-time players in the big-time galaxy. There are no heroes or women being rescued; instead, readers are led through an intricate maze of alien courting customs, duplicitous strict religious codes, vicious culture shock, and uncomfortable compromises. Renaissance Alliance Series Books available in ebook, paperback and audiobook Married to the Alien Admiral, Renaissance Alliance Series, Book 1 Married to the Alien Doctor, Renaissance Alliance Series, Book 2 Married to the Alien with No House, Renaissance Alliance Book 3 Married to the Alien Admiral of the Fleet, Renaissance Alliance Series, Book 4 Abducted by the Alien Pirate, Renaissance Alliance Series, Book 5, Restaurateur in the Alliance Empire, Renaissance Alliance Series, Book 6 The Ward of House Rega, Renaissance Alliance Series, Book 7 The Disciple of the Alien Goddess of Home, Renaissance Alliance Series, Book 8. Jewelry and Couture of the Alliance Empire, Renaissance Alliance Series Book 9 Although it is possible to jump into the Renaissance Alliance Series at any time, it's recommended you keep in mind that the series has an underlying main story which is concluded in the book, The Disciple of the Alien Goddess of Home, Book 8.

The Empire's New Clothes Psychology Press

This richly illustrated book reveals how Joséphine, Napoléon Bonaparte's empress, shaped the arts of early nineteenth-century France and beyond. Her incomparable sense of style, her passion for collecting, her love of gardens, and her commissions of works by major artists such as Antonio Canova, Jacques-Louis David, Pierre-Paul Prod'hon, and Pierre-Joseph Redouté set the standard for a new aesthetic. On these pages the opulence of Salon culture is set against the tumultuous era of Revolution and Empire, romance and tragedy—a world in which Joséphine rose to her own momentous role in history with singular grace and elegance.
