The Dog Runner Floodworld

From Kwame Mbalia and Prince Joel David Makonnen comes an Afrofuturist adventure about a mythical Ethiopian empire. Sci-fi and fantasy combine in this epic journey to the stars. Yared Heywat lives an isolated life in Addis Prime -- a hardscrabble city with rundown tech, lots of rules, and not much to do. His worrywart Uncle Moti and bionic lioness Besa are his only family... and his only friends. Often in trouble for his thrill-seeking antics and wisecracking sense of humor, those same qualities make Yared a star player of the underground augmented reality game, The Hunt for Kaleb's Obelisk. But when a change in the game rules prompts Yared to log in with his real name, it triggers an attack that rocks the city. In the chaos, Uncle Moti disappears. Suddenly, all the stories Yared's uncle told him as a young boy are coming to life, of kingdoms in the sky and city-raiding monsters. And somehow Yared is at the center of them. Together with Besa and the Ibis -- a game rival turned reluctant ally -- Yared must search for his uncle... and answers to his place in a forgotten, galaxy-spanning war.

Secrets of the Sixth Edition W. W. Norton & Company

How the mystery of the Bible's greatest story shaped geology: a MacArthur Fellow presents a surprising perspective on Noah's Flood. In Tibet, geologist David R. Montgomery heard a local story about a great flood that bore a striking similarity to Noah's Flood. Intrigued, Montgomery began investigating the world's flood stories and—drawing from historic works by theologians, natural philosophers, and scientists—discovered the counterintuitive role Noah's Flood played in the development of both geology and creationism. Steno, the grandfather of geology, even invoked the Flood in laying geology's founding principles based on his observations of northern Italian landscapes. Centuries later, the founders of modern creationism based their irrational view of a global flood on a perceptive critique of geology. With an explorer's eye and a refreshing approach to both faith and science, Montgomery takes readers on a journey across landscapes and cultures. In the process we discover the illusive nature of truth, whether viewed through the lens of science or religion, and how it changed through history and continues changing, even today.

Darwin's *On the Origin of the Species* was originally released in 1859, and by 1872, the sixth and last edition was published, becoming the defining text for evolutionists. This controversial work has become the foundation of modern textbooks for scientific studies in origins, though Darwin himself expressed deep doubts about his own speculations and suppositions. Take an insightful look at Darwin's work and its inaccuracies from a fresh and logical perspective. You will discover the often ignored reasoning behind his own abandonment of some of the core mechanisms of evolution later in his life, though they remain unchallenged pillars of unquestioning science today. This informative and easy-to-read study boldly declares the powerful truth that only biblical creation can explain.

Floodworld Henry Holt and Company (BYR)

¿There were giants in the earth in those days; and also after that, when the sons of God came in unto the daughters of men, and they bare children to them, the same became mighty men which were of old, men of renown.¿ ¿ Genesis 6:4 6,000 years ago a war began. A war

to rule Heaven and Earth that dates all the way back to the Garden of Eden. In the Garden, God told Satan that one day a woman would give birth to a male child - the Messiah, who would redeem humanity and destroy him. In order to prevent this child's birth, Satan instigated a fallen angelic rebellion. A group of angels broke off their allegiance to the Lord and entered the early realm to corrupt the human gene pool and prevent the Savior's birth. These fallen angels (sons of God) took human wives (daughters of men) and had children with them. Their offspring hybrid half-human, half-angelic beings, were superhuman giants known as the Nephilim. With human DNA corrupted and humanity hanging in the balance, The Lord unleashed a punishment against the Nephilim that was so severe, only Noah and his family would survive. This is the first comprehensive Biblical study of the Nephilim. Using only Scripture, we are given a complete picture of the war between two bloodlines the lineage of the Messiah and the seed of Satan. Exploring passages rarely connected to the giants, some of the most challenging questions in the Bible regarding the Nephilim will be answered, including: Why did Pharaoh order all male children to be thrown in the river and Herod execute all male children in Bethlehem? How were angels able to reproduce with human women? Who was the first human woman to marry the "sons of God"? How did the Nephilim return after the Flood and are there still Nephilim among us? The JUDGMENT OF THE NEPHILIM will give you a deeper appreciation of God's Word, His unwavering love and defense of the human race.
