Unionization of teachers has led to fundamental changes in the management of education and in relations between teachers and school districts. Understanding the Teacher Union Contract explores the implications of this collective-bargaining revolution in education. Through detailed examination Lieberman shows how the kinds of provisions typically found in teacher union contracts affect the educational workplace and education reform, and how they might be revised to the benefit of students, parents, and the public. Lieberman begins with the respective

roles of school district management and teacher unions. Unlike managers in the private sector, school district officials are part of a government agency that is legally responsible for operating public schools in the public interest. They must balance the interests of employees with the needs of students, taxpayers, and parents, as well as with district educational goals. Teacher unions' primary objectives are to enhance employee welfare and to promote the union as an effective organization. Unions must balance the differing needs of various groups within their membership -- for example, by resolving tensions between older teachers who want improved retirement benefits and younger teachers who might prefer more rapid salary increases. Lieberman shows how competing union and management goals play out in collective bargaining and are embodied in teacher union contracts. He argues that by developing an understanding

of teacher unions, their role, and their needs, district officials and school board members can bargain more effectively and develop a productive ongoing relationship with unions. This highly readable book will be of interest not only to school administrators and board members but also to teacher representatives, parents, taxpayers, and members of the media who report on education.

A Guide to Ontario School Law is a comprehensive, non-partisan, fair-reading of provincial educational statutes, regulations, and relevant policies that will be a first-aid and reference to the lay reader. Our goal is to provide an up-to-date, accessible, and user-friendly guide to various legal parameters for teachers, aspiring teachers, trustees, school administrators, central office administration, parents and interested community members. In particular, the resources and insights in this guide are aimed at helping teacher candidates to develop literacy in educational law and policy and, ultimately, to successfully transition from teacher education programs into teaching careers.

Managing Staff in Schools Routledge

This volume is the first collection of original research brought together under the name of new forms of employment. The contributions written specifically for this project – an introduction, conclusion, and chapters – propose to critically investigate the current state of this burgeoning and relevant research field and map out future directions. The diverse selection of research oriented on new forms of employment across the World included in this volume provides readers with a variety of topics, disciplinary angles, critical approaches and practices, methods and interpretations, emphases and voices, which, when taken

together, illustrate the diversity and complexity of this dynamic and stimulating field, as well as the heightened attention to labour and employment law issues and proliferation of labour and employment law-oriented scholars. Q&A Employment Law 2013-2014 Human Kinetics

Legislation is one of the most important tools for empowering children. It reflects the commitment of the state to promote an ideal and progressive value system. Recent years have seen several key developments in the law, policy, and practice related to child rights. Significantly, with the adoption of the United Nations Convention on the Rights of the Child in 1989, a rights-

based approach has acquired prominence in the child rights discourse across the world. The book analyses the laws in the light of court judgments and policy initiatives taken in India. It also examines the interventions and strategies employed by non-governmental organizations in recommending legislative reforms in support of children. This fully revised third edition focuses on the new legal developments in India—such as the Juvenile Justice (Care and Protection of Children) Act, 2015; the new Central Adoption Resource Agency guidelines; the Right of Children to Free and Compulsory Education Act, 2009; and the National Food Security Act, 2013—thus attempting to integrate the law in theory and field practice.
