The Politics of Fossil Fuel Subsidies and Their Reform Food & Agriculture Org.

This textbook provides a strategic marketing and managerial perspective of electronic commerce. The research of the four authors provides the basis for the book, allowing for first-hand experience, varied viewpoints, and relevance. Contents: 1) Electronic commerce: An introduction. 2) Electronic commerce technology. 3) Web strategy: Attracting and retaining visitors. 4) Promotion: Integrated Web communications. 5) Promotion & purchase: Measuring effectiveness. 6) Distribution. 7) Service. 8) Pricing. 9) Post-Modernism and the Web: Societal effects.

FERC Form No. 6, Annual Report of Oil Pipeline Companies Instaread

Written in clear, straightforward language, *Just-in-Time Manufacturing: An introduction* discusses in-depth the implementation of JIT manufacturing. The objectives are twofold: firstly, to acquaint the reader with the overall JIT concept and the factors necessary for its implementation, and secondly to reinforce this with an actual case study of JIT implementation in a manufacturing company.

Transforming Practices World Bank Publications

This paper discusses implementation of the Fifth National Development Plan (FNDP) in Zambia. The planning process of the FNDP integrated views from the Provincial and District Development Plans approved by the respective provincial and district level organs. The FNDP's goals are multipronged. The government recognizes that wealth creation through sustained economic growth constitutes the most important element in poverty reduction and, consequently, a high premium is being placed on growth-stimulating interventions. The government also recognizes that redistributive policies do matter for reducing poverty and that growth and equity are not necessarily in conflict.

Just-in-Time Manufacturing Springer Science & Business Media

Aimed at students, this work covers various aspects of e-business - focusing on sales and marketing, as well as detailing procurement, supply chains, and the legal and security considerations. It contains a range of features to help you learn effectively including margin definitions, international case studies, activities and web links.

Extending the Protection of Geographical Indications Routledge

Get your business ranked #1 on Google. *SEO Made Simple*(R) (6th Edition), is the leading SEO book for optimizing websites, blogs, and other digital assets. Updated for the most recent Google algorithm changes, *SEO Made Simple* is today's top selling search engine optimization book. Learn SEO with the sixth edition of search engine optimization made simple. This search engine optimization guide has been revamped to address the strategies needed for top search engine rankings - a tell-all search engine optimization guide for anyone trying to reach the highly coveted #1 ranking on Google for their website, blog, or video (5th edition). Improve your website rankings with *SEO Made Simple* (6th Edition) Updated and expanded with the latest information on search engine optimization (SEO) and including more than 20 new pages of proven search engine optimization techniques that address the changing landscape of search engine optimization. This updated guide includes optimization advice for local search, mobile search engine optimization, reputation management, and much more. *SEO Made Simple* is today's top-selling search engine optimization guide and has sold more than 30,000 copies. Learn from leading search engine optimization author, speaker, and entrepreneur, Michael H. Fleischner. Whether you're a search engine optimization expert or new to website rankings, the techniques revealed in *SEO Made Simple* will give you everything you need to dominate Google and other leading search engines with proven search engine optimization strategies. Generate tons of traffic to your website absolutely FREE with top search engine placement on Google, Yahoo! and Local Search Engines. *SEO Made Simple* has helped more individuals than another other search engine optimization guide ever printed to achieve top rankings for even the most competitive keywords. This guide has been updated with the latest SEO advice on social media, Google My Business, Local Search, and even a step-by-step link building process that has already produced top results for some of the most sought after keywords. If you are looking for a guide that provides the information you need to achieve top search engine rankings, without all of the useless fluff, this is it. *SEO Made Simple* (6th Edition) is the only resource on search engine optimization that you'll ever need. Learn the techniques that have a direct and significant impact on your website's ranking. This book is ranked #1 for a reason. Read our reviews and see for yourself why *SEO Made Simple* is your most important resource for acquiring top search engine rankings.

Managing Water Under Uncertainty and Risk IntroBooks

The TRIPS Agreement (for trade-related intellectual property rights) provides for the general protection of geographical indications (GIs) of product origin, including for example the special protection of wines and spirits and for the creation of a multilateral register for wines. The African Group of countries has been in the forefront of countries agitating in the World Trade Organization TRIPS Council for the extension of this special protection and of the multilateral register to industries which are of interest to developing countries, primarily agriculture. The so-called "extension question" is the central feature of the Doha Development Agenda at both the WTO and World Intellectual Property Organization. This book provides some empirical evidence and applied legal and economic reasoning to this debate. It provides both a general review of the key issues and a series of case studies

from six Anglophone and four Francophone countries in Africa. These focus on major agricultural commodities such as coffee, cotton, cocoa and tea, as well as more specific and local products such as Argan oil and Oku white honey.

Independent Power Projects in Sub-Saharan Africa Springer

This book examines the role played by two popular private newspapers in the struggle for democracy in Zimbabwe, one case from colonial Rhodesia and the other from the post-colonial era. It argues that, operating under oppressive political regimes and in the dearth of credible opposition political parties or as a platform for opposition political parties, the African Daily News, between 1956-1964, and the Daily News, between 1999-2003, played an essential role in opening up spaces for political freedom in the country. Both newspapers were ultimately shut down by the respective government of the time. The newspapers allowed reading publics the opportunity to participate in politics by providing a daily analytical alternative, to that offered by the government and the state media, in relation to the respective political crises that unfolded in each of these periods. The book further examines both the information policies pursued by the different governments and the way these affected the functioning of private media in their quest to provide an "ideal" public sphere. It explores issues of ownership, funding and editorial policies in reference to each case and how these affected the production of news and issue coverage. It considers issues of class and geography in shaping public response. It also focuses on state reactions to the activities of these newspapers and how these, in turn, affected the activities of private media actors. Finally, it considers the cases together to consider the meanings of the closing down of these newspapers during the two eras under discussion and contributes to the debates about print media vis-à-vis the new forms of media that have come to the fore.

Global Status Report on Road Safety 2013 INTERNATIONAL MONETARY FUND

Teaches you all about e-commerce and how to create your own online shop using WordPress and WooCommerce. Regardless of a business's size, e-commerce helps level the playing field, increases a business's exposure, allows companies to reach customers globally, and streamlines the fulfillment process. In the past, e-commerce websites were expensive, technically difficult, and time-consuming to create but not anymore. WordPress and WooCommerce together are a complete e-commerce solution that can be used to sell both physical and digital products online. You'll learn how to install WordPress and how to plan your e-commerce solution with WooCommerce as well as install, create, secure, test, and market a sample online store. Increase your brand and products' or services' exposure to your target customers, and increase sales by offering target customers the ability to purchase products online as well as reach potential customers globally. What You'll Learn Plan an effective ecommerce strategy Choose a payment merchant and which products or services to sell online Secure your store and add products, descriptions, categories, images, and prices Maintain and expand your online store with WooCommerce extensions Who This Book Is For Ideal for entrepreneurs and small business owners who know their products (physical or digital), but lack the technical background and skills to setup an online store to sell their products and services.

Summary of Why Nations Fail Apress

Based on an in-depth analysis of several contrasting agricultural regions, this book aims to assess South Africa's ongoing agrarian reform and the country's agrarian dynamics. Without fundamentally questioning the highly specialized, fossil energy and synthetic input dependent, oligopolistic entrepreneurial agricultural production model, which is presently structuring the sector and is guiding the reforms, a more equitable redistribution of resources and value-addition will by no means be possible. This book examines and contributes to the structural questions that underpin the current stagnation of South Africa's agrarian reform. Presenting fresh approaches in analysing agrarian issues and tools to assess farming systems and agricultural development, this incisive study will be an important resource to policy makers, academics and those with an interest in agrarian reform.

PHP 5 E-commerce Development TalentSmart

This book presents high-quality, original contributions (both theoretical and experimental) on software engineering, cloud computing, computer networks & internet technologies, artificial intelligence, information security, and database and distributed computing. It gathers papers presented at ICRIC 2019, the 2nd International Conference on Recent Innovations in Computing, which was held in Jammu, India, in March 2019. This conference series represents a targeted response to the growing need for research that reports on and assesses the practical implications of IoT and network technologies, AI and machine learning, cloud-based e-Learning and big data, security and privacy, image processing and computer vision, and next-generation computing technologies.

Building Your Online Store With WordPress and WooCommerce HSRC Publishers

This textbook shows how people can and do transform the world through transforming their practices and the practice architectures that shape them, and contributes to contemporary practice theory. It provides an authoritative, comprehensive, and contemporary account of the theory of practice architectures, illustrated through examples drawn from years of research by participants in the Pedagogy, Education, and Praxis international research network from Australia, New Zealand, Finland, Norway, Sweden, the Netherlands, Colombia, and the Caribbean. Its content provides a variety of resources for researchers who are new to research using the theory of practice architectures. It includes tables to assist with the analysis of practices, and provides clear examples to aid understanding and application. This textbook provides readers with a thorough grounding in the theory and ways the theory of practice architectures has been used in investigations of social and educational practice.

Mini Hydropower Tong Jiandong, Zheng Naibo, Wang Xianhuan, Hai Jing, Ding Huishen Hangzhou Regional Centre for Small Hydro Power, China Mini hydropower (MHP) is an increasingly important means of generating primary electricity using the water resources of small rivers. A clean, cost-effective and renewable energy resource, MHP is a well-developed technology, and ideal for deployment in areas remote from the national grid. Describing mini hydrostations with a capacity of between 0.5MW to 2MW, this comprehensive text focuses on the practical development of this technology, from planning and design, through economic and social benefits. Features include: Detailed discussion on all aspects of hydrology and hydroenergy design. Study of the geological problems encountered during mini hydro construction. Presentation of the latest technology required for mini hydro plants from water turbines to electrical equipment. Consideration of the economic and financial feasibility of this energy resource and the social and environmental impact on the community. Useful self-assessment question and answer sections at the end of each chapter. Written by a team of experts in China, this thorough text will allow exploitation of the technology at an international level. This book will appeal to both advanced undergraduate and postgraduate students, as well as professionals in the fields of power engineering, mini hydropower development and related technical service personnel. Mini Hydropower forms a part of the Energy Engineering Learning Package. Organised by UNESCO, this distance learning package has been established to train engineers to meet the challenges of today and tomorrow in this exciting field of energy engineering. It has been developed by an international team of distinguished academics, co-ordinated by Dr Boris Berkovski. This modular course will appeal to advanced undergraduate and post-graduate students, as well as practising power engineers in industry.

The Ila-speaking Peoples of Northern Rhodesia Packt Pub Limited

Provides the latest QMRA methodologies to determine infection risk caused by either accidental microbial infections or deliberate infections caused by terrorism • Reviews the latest methodologies to quantify at every step of the microbial exposure pathways, from the first release of a pathogen to the actual human infection • Provides techniques on how to gather information, on how each microorganism moves through the environment, how to determine their survival rates on various media, and how people are exposed to the microorganism • Explains how QMRA can be used as a tool to measure the impact of interventions and identify the best policies and practices to protect public health and safety • Includes new information on genetic methods • Techniques used to develop risk models for drinking water, groundwater, recreational water, food and pathogens in the indoor environment

Leadership 2.0 Springer

This is a fast-paced tutorial focusing on creating a framework and using it to build an online store through an ongoing case study. Later chapters include examples to illustrate how easily the framework can be adapted for different situations. The framework and code are enhanced and built upon with each chapter, adding more and more functionality. If you are a web developer, or anyone looking to increase your understanding of e-commerce site development, this book is for you. Primarily aimed at PHP developers, it is suitable for any web developer interested in enhancing their e-commerce knowledge, or developers looking to move towards PHP. Intermediate knowledge of PHP development and object-oriented programming is assumed, and basic knowledge of e-commerce principles will be of benefit too.

Pain Management and the Opioid Epidemic Springer Nature

Inadequate electricity services pose a major impediment to reducing extreme poverty and boosting shared prosperity in Sub-Saharan Africa. Simply put, Africa does not have enough power. Despite the abundant low-carbon and low-cost energy resources available to Sub-Saharan Africa, the region's entire installed electricity capacity, at a little over 80 GW, is equivalent to that of the Republic of Korea. Looking ahead, Sub-Saharan Africa will need

to ramp-up its power generation capacity substantially. The investment needed to meet this goal largely exceeds African countries already stretched public finances. Increasing private investment is critical to help expand and improve electricity supply. Historically, most private sector finance has been channeled through privately financed independent power projects (IPP), supported by nonrecourse or limited recourse loans, with long-term power purchase agreements with the state utility or another off-taker. Between 1990 and 2014, IPPs have spread across Sub-Saharan Africa and are now present in 17 countries. Currently, there are 125 IPPs, with an overall installed capacity of 10.7 GW and investments of \$24.6 billion. However, private investment could be much greater and less concentrated. South Africa alone accounts for 67 IPPs, 4.3 GW of capacity and \$14.4 billion of investments; the remaining projects are concentrated in a handful of countries. The objective of this study is to evaluate the experience of IPPs and identify lessons that can help African countries attract more and better private investment. At the core of this analysis is a reflection on whether IPPs have in fact benefited Sub-Saharan Africa, and how they might be improved. The analysis is based primarily on in depth case studies, carried out in five countries, including Kenya, Nigeria, South Africa, Tanzania and Uganda, which not only have the most numerous but also among the most extensive experience with IPPs.

Private Print Media, the State and Politics in Colonial and Post-Colonial Zimbabwe World Health Organization

"Fossil fuel subsidies strain public budgets, and contribute to climate change and local air pollution. Despite widespread agreement among experts about the benefits of reforming fossil fuel subsidies, repeated international commitments to eliminate them, and valiant efforts by some countries to reform them, they continue to persist. This book helps explain this conundrum, by exploring the politics of fossil fuel subsidies and their reform. Bringing together scholars and practitioners, the book offers new case studies both from countries that have undertaken subsidy reform, and those that have yet to do so. It explores the roles of various intergovernmental and non-governmental institutions in promoting fossil fuel subsidy reform at the international level, as well as conceptual aspects of fossil fuel subsidies. This is essential reading for researchers and practitioners, and students of political science, international relations, law, public policy and environmental studies. This title is also available as Open Access"-- Provided by publisher.

Encyclopedia of E-Commerce, E-Government, and Mobile Commerce Springer

Being a complex disease that affects millions of people world over, cancer research has assumed great significance. Translational cancer research transforms scientific discoveries in the laboratory into clinical application to reduce incidence of cancer, morbidity and mortality. On the other hand, personalized medicine in cancer is the concept that selection of a treatment should be tailored according to the individual patient's specific genomic characteristics, including mutations, chromosomal aberrations, protein interactions, and SNPs, and even more, taking into account the immune system, the metabolism and maybe in the next future also the microbiome.

Intellectual Property Crash Course Springer

A timely overview of the energy landscape in South Africa (RSA) is presented in this Springerbrief. The background and context to the current situation, and analysis of the policies being put forward by the government for the near future are described. Four broad areas are covered: reserves and production of fossil fuels, the electricity sector, the rapidly growing exploitation of renewable energy, and the recent push towards developing an industry around hydrogen and fuel cells. This Springerbrief presents a methodical review of the energy landscape in RSA, covering the general situation, the supply and demand for energy, and the structure of the energy sector (Chapters 1&2). Chapter 3 presents data and analysis of the country's fossil fuels, electricity generation, and the chemistry of green, future sources of energy, production and the role of industry. Chapter 4 discusses recent developments, including the impact on green jobs and green funds, and Chapter 5 reflects on the policies that have been proposed and their potential implications.
