RAMOS MILLS

Signs, Songs, and Memory in the Andes

Duke University Press
A harrowing meditation on tyranny, torture, and freedom by one of Chile's most celebrated contemporary poets. Raúl Zurita's INRI is a visionary response to the atrocities committed under the dictatorship of General Augusto Pinochet. In this deeply moving elegy for the dead, the whole of Chile, with its snow-covered cordilleras and fields of wildflowers, its empty spaces and the sparkling sea beyond, is simultaneously transformed into the grave of its lost children and their living and risen body. Zurita's incantatory,

unapologetically political work is one of the great prophetic poems of our new century.

Angels and Demons in Art
Bucknell University Press

This sumptuously illustrated volume analyzes artists' representations of angels and demons and heaven and hell from the Judeo-Christian tradition and describes how these artistic portrayals evolved over time. As with other books in the Guide to Imagery series, the goal of this volume is to help contemporary art enthusiasts decode the symbolic meanings in the great masterworks of Western Art. The first chapter traces the development of images of the Creation and the Afterworld from descriptions of them in the Scriptures through

their evolution in later literary and philosophical works. The following two chapters examine artists' depictions of the two paths that humans may take, the path of evil or the path of salvation, and the punishments or rewards found on each. A chapter on the Judgment Day and the end of the world explores portrayals of the mysterious worlds between life and death and in the afterlife. Finally, the author looks at images of angelic and demonic beings themselves and how they came to be portrayed with the physical attributes--wings, halos, horns, and cloven hooves--with which we are now so familiar. Thoroughly researched by and expert in the field of iconography, *Angels and Demons in Art* will delight readers with an interest in

art or religious symbolism.

In these six essays--
delivered on the BBC as
the prestigious Reith
Lectures--Edward Said
addresses the ways in
which the intellectual can
best serve society in the
light of a heavily
compromised media and
of special interest groups
who are protected at the
cost of larger community
concerns. Said suggests a
recasting of the
intellectual's vision to
resist the lures of power,
money, and
specialization. In these
pieces, Said eloquently
illustrates his arguments
by drawing on such
writers as Antonio
Gramsci, Jean-Paul Sartre,
Regis Debray, Julien
Benda, and Theodore

Adorno, and by discussing
current events and
celebrated figures in the
world of science and
politics: Robert
Oppenheimer, Henry
Kissinger, Dan Quayle,
Vietnam and the Gulf War.
Said sees the modern
intellectual as an editor,
journalist, academic, or
political adviser--in other
words, a highly
specialized professional--
who has moved from a
position of independence
to an alliance with
powerful corporate,
institutional, or
governmental
organizations. He
concludes that it is the
exile-immigrant, the
expatriate, and the
amateur who must uphold
the traditional role of the
intellectual as the voice of
integrity and courage,
able to speak out against
those in power.

Shards of Love Latin
America in Translation
The late scholar and critic
Flores (1900-1992)
selected some 330 major
novelists and poets from
Puerto Rico, the
Caribbean, and Central
and South America, both
as exemplars of the
literature of all the
countries of Spanish
America and as personally
important literary
creators. Flores knew
most of the authors and

was able to obtain from many extraordinary autobiographical passages that often form a part of the author's sketch. Most of the sketches were written in Spanish and translated into English. Critical insights and assessments of translations (a feature of inestimable value and interest) accompany biographies and autobiographies. All material was edited by Flores, who also prepared most of the excellent and extensive bibliographies. Annotation copyright by Book News, Inc., Portland, OR

Addressing the future of comparative literature, the essays contained in this text consider issues such as the discipline's traditional Eurocentrism at a time of expanded multiculturalism and the role that foreign language study and translation can play in broadening the scope of critical inquiry.

I Will Survive is the story of Gloria Gaynor, America's "Queen of Disco." It is the story of riches and fame, despair, and finally salvation. Her meteoric rise to stardom in the mid-1970s was nothing short of phenomenal, and hits poured forth that pushed her to the top of the charts, including "Honey Bee," "I Got You Under My Skin," "Never Can Say Goodbye," and the song that has immortalized her, "I Will Survive," which became a #1 international gold seller. With that song, Gloria

heralded the international rise of disco that became synonymous with a way of life in the fast lane - the sweaty bodies at Studio 54, the lines of cocaine, the indescribable feeling that you could always be at the top of your game and never come down. But down she came after her early stardom, and problems followed in the wake, including the death of her mother, whose love had anchored the young singer, as well as constant battles with weight, drugs, and alcohol. While her fans always imagined her to be rich, her personal finances collapsed due to poor management; and while many envied her, she felt completely empty inside. In the early 1980s, sustained by her marriage to music publisher Linwood Simon, Gloria took three years off and reflected upon her life. She visited churches and revisited her mother's old Bible. Discovering the world of gospel, she made a commitment to Christ that sustains her to this day.

Find a Penny pick it up and all day long you'll have good luck...except, of course, if that Penny is charming and pretty and

funny, and the person picking her up just happens to be your boyfriend. Alice McKinley's freshman year is not as "lucky" as she was hoping it would be. But she's trying to look on the bright side. There are worse things than being single for a semester... for a school year...for the whole summer.... At least Alice can count on her best friends for support—in theory, anyway. Lately they haven't been all that there-for-her. In fact, it seems like Pam and Liz are suddenly involved in intense, secret conversations whenever Alice is around. Single is starting to feel a whole lot like solo.

 "Ya-Wen Ho's Last edited [insert time here] sits in a complex place, and how fortunate for us that this poet negotiates these intricacies with smooth turns between playful, intelligent, and funny. Ya-Wen Ho's stream of conscious word play rushes us through everything from pop culture to population control in China to PhDs driving taxis asking us to try and not "detonate the sleeping dog" and have a fabulous time while (not)

doing it."--Back cover.

 In 1806, 12-year-old Hannah embroiders the sampler of the long title poem. As the seasons pass, she works through her grief in the language of embroidery; for among the births and deaths recorded in Hannah's stitches are those of her little brother Nathan. *American Sampler* is about vanishing worlds and the struggle of memory, craft, and imagination to hold fragments of the past and turn them into fresh, breathing moments. Jane Duran's childhood memories of rural New England--its landscapes, weather, and light--permeate many of the poems. A beaded moccasin, a folk painting, a letter from a Union soldier, a Tappan chair: art, artifact, and archive inform and illuminate these sympathetic glimpses into an America long past.

 Poetry. Latino/Latina Studies. Bilingual Edition. Translated from the Spanish by Daniel Borzutzky. "I sang the song of the old concrete sheds. It was filled with hundreds of niches, one

over the other. There is a country in each one; they're like boys, they're dead." In this landmark poem, written at the height of the Pinochet dictatorship, major Chilean poet Raul Zurita protests with ferocious invention the extinguishment of a generation and the brutalization of a nation. Of the role of poetry and of his own treatment by the military under this regime, Zurita has said, "You see, the only thing that told me that I wasn't crazy, that I wasn't living in a nightmare, was this file of poems, and then when they threw them into the sea, then I understood exactly what was happening." This elegy refuses to be an elegy, refuses to let the Disappeared disappear.

 This major new introduction to comparative literature is for the students coming to the subject for the first time. Through an examination of a series of case studies and new theoretical developments, Bassnett reviews the current state of comparative literature world-wide in the 1990s. In the past twenty years of a range of new

developments in critical theory have changed patterns of reading and approaches to literature: gender-based criticism, reception studies, the growth of translation studies, deconstruction and orientalism all have had a profound impact on work in comparative literature. Bassnett asks questions not only about the current state of comparative literature as a discipline, but also about its future. Since its beginnings in the nineteenth century, comparative literature has been closely associated with the emergence of national cultures, and its present expansion in many parts of the world indicates that this process is again underway, after a period of narrowly Eurocentric research in the field.

Sixteen original essays on women writers from Mexico, Guatemala, Honduras, Costa Rica, Colombia, Ecuador, Uruguay, Argentina, and Brazil are gathered in this book. Each establishes the relationship between the biography of the subject and her literary production. Some of these writers, like Nobel Prize-winner Gabriela Mistral, Elena Poniatowska, and Victoria Ocampo, are well known; others are still

largely undiscovered. All of them defy the limits imposed upon them by society, and all have been able to find freedom through creative imagination. All the writers included here are vitally concerned with the problems women face in Latin America. Children and mothers are the central focus of their lives and of many of their writings. These writers have participated in essential ways in the history of their respective countries and in the intellectual history of Latin America, and at the same time, their greatest contribution has been in the sharing of the private details of personal stories, their own and others. In the strong connections that many of them have had with each other, Marjorie Agosin sees a culture of sisterhood.
