Easter Rising Macmillan

There are over 130 million orphans worldwide. The pro-life/pro-choice debate continues to consume politics and everyday conversations. Readers want to know what they can do to make a difference on these issues. *Wait No More* tells Kelly and John Rosati's story of experiencing God more fully through the great blessings and challenges encountered during their journey to adopt four children from the U.S. foster care system. It is a story of God's faithfulness to grow a beautiful family, through adoption, from the ashes of child abuse, neglect, and abandonment. The Rosatis strongly believe that God's solution for orphaned children in the foster care system involves ordinary Christians desiring to live out an authentic pro-life commitment requiring action, not just words. Their story reveals how their beliefs challenged, enriched, and completely changed their family's life.

An "alternately funny and heartbreaking" memoir of leaving—and finding—home, by the author of *All Souls: A Family Story from Southie* (Newsweek). In *All Souls*, Michael Patrick MacDonald told the story of the loss of four of his siblings to the violence, poverty, and gangsterism of Irish South Boston. In *Easter Rising*, he tells the story of how he got out. Desperate to avoid the "normal" life of Southie, Michael first reinvents himself in the burgeoning punk rock movement and the thrilling vortex of Johnny Rotten, Mission of Burma, and the Clash. At nineteen, he escapes further, to Paris and then London. Finally, out of money, he contacts his Irish immigrant grandfather—who offers a loan, but only if Michael will visit Ireland. It is on this reluctant journey to his ancestral land that Michael will find a chance at reconciliation—with his heritage, his

neighborhood, and his family—and, ultimately, a way forward.

During 1938 and 1939, Paul Neurath was a Jewish political prisoner in the concentration camps at Dachau and Buchenwald. He owed his survival to a temporary Nazi policy allowing release of prisoners who were willing to go into exile and the help of friends on the outside who helped him obtain a visa. He fled to Sweden before coming to the United States in 1941. In 1943, he completed *The Society of Terror*, based on his experiences in Dachau and Buchenwald. He embarked on a long career teaching sociology and statistics at universities in the United States and later in Vienna until his death in September 2001. After liberation, the horrific images of the extermination camps abounded from Dachau, Buchenwald, and other places. Neurath's chillingly factual discussion of his experience as an inmate and his astute observations of the conditions and the social structures in Dachau and Buchenwald captivate the reader, not only because of their authenticity, but also because of the work's proximity to the events and the absence of influence of later interpretations. His account is unique also because of the exceptional links Neurath establishes between personal experience and theoretical reflection, the persistent oscillation between the distanced and sober view of the scientist and that of the prisoner.

 Object Lessons is a series of short, beautifully designed books about the hidden lives of ordinary things. When you are born, the first thing you do is scream. Be it a response to fear, anger, sadness, or happiness, the scream is a declaration of being alive. The metal vocalist cupping the microphone blares out a deafeningly harsh scream. The drill instructor screams out commands to their soldiers. And then there's the bloodcurdling screams we know from horror films. A scream has many meanings, but it is an instinctive and reflexive action that, at its core, reveals raw emotion. Investigating popular and alternative cultures, art, and science, Michael J. Seidlinger tracks the resonance of the scream across media and literature and in his own voice. Object Lessons is published in partnership with an essay series in The Atlantic.

The children of Deh Koh live in a society that is often harsh. Yet, while outward circumstances of post-revolutionary village life seem to limit young people's experiences, their strategies to surmount authority and personal demands through their games, pastimes, and the gendered patterns of interaction provide unexpected choices for movement and thought. In Children of Deh Koh, the youngsters emerge as unsentimental realists who manipulate their meager resources as they learn from their elders ambiguous truths about how the world operates. Friedl weaves together local practices, cognitive categories, folklore, and anecdotes concerning all aspects of growing up: from conception to early childhood, from understanding religion to using kinship terms correctly. Readers of Women of Deh Koh will once more welcome Friedl's lyrical descriptions of a society both universal and unfamiliar. New readers will discover a world that defies easy categorization.

Only a miracle-and faulty workmanship-prevents a germ-packed warhead from exploding when a terrorist missile slams into the United Nations building in New York. The lettering on the side of the rocket is Russian, which presents the West with its worst nightmare: a direct link between a fanatical U. S. terrorist group

and Russian gangsters with access to the germ warfare arsenal of the former Soviet Union. This potentially devastating attack reunites the FBI's Russian expert William Cowley and Moscow's Organized Crime Director Dimitri Danilov. Their task: to penetrate and destroy the unknown group

claiming responsibility before they can strike again. And as the Superpowers teeter on the brink of diplomatic meltdown, Cowley and Danilov make another nightmare discovery. The terrorists are being cleverly financed by

ultra-sophisticated hackers looting U. S. banks, breaking into law enforcement and Pentagon computers, and keeping themselves always one click ahead of the frantic pursuit. The Watchmen is a spine-chilling chase that strikes at the heart of our fears of terrorism and its prevention.
