As the visual representation of an essentially oral text, Sylvia Huot points out, the medieval illuminated manuscript has a theatrical, performative quality. She perceives the tension between implied oral performance and real visual artifact as a fundamental aspect of thirteenth- and fourteenth-century poetics. In this generously illustrated volume, Huot examines manuscript texts both from the performance-oriented lyric tradition of chanson courtoise, or courtly love lyric, and from the self-consciously literary tradition of Old French narrative poetry. She demonstrates that the evolution of the lyrical romance and dit,

narrative poems which incorporate thematic and rhetorical elements of the lyric, was responsible for a progressive redefinition of lyric poetry as a written medium and the emergence of an explicitly written literary tradition uniting lyric and narrative poetics. Huot first investigates the nature of the vernacular book in the thirteenth and fourteenth centuries, analyzing organization, page layout, rubrication, and illumination in a series of manuscripts. She then describes the relationship between poetics and manuscript format in specific texts, including works by widely read medieval authors such as Guillaume de Lorris, Jean de Meun, and Guillaume de Machaut, as well as by lesser-known writers including Nicole de Margival and Watriquet de Couvin. Huot focuses on the writers' characteristic modifications of lyric poetics; their use of writing and performance as theme; their treatment of the poet as singer or writer; and of the lady as implied reader or listener; and the ways in which these features of the text were elaborated by scribes and illuminators. Her readings reveal how medieval poets and book-makers conceived their common project, and how they distinguished their respective roles.

This title was first published in 1976. The attainment of political independence by more than ninety countries since the Second

World War has directed attention to the conditions of economic helplessness and dependency that continue to frustrate the development of at least two-thirds of the world's nations. Two and sometimes three decades of disappointing efforts to extricate themselves from dependency have begun to provoke serious reappraisals in many lands about the entire concept of development. Accordingly, the time ahead will surely be a period of growing cultural-communications struggle □ intra- and inter-nationally □ between those seeking the end of domination and those striving to maintain it. The intention of this work is to assist, in a very modest way, in the outcome of this struggle. *Some Aspects of Cultural Policy in Togo* Oxford University Press

This work describes riverine combat during the Vietnam War, emphasizing the operations of the U.S. Navy's River Patrol Force, which conducted Operation Game Warden; the U.S. Army-Navy Mobile Riverine Force, the formation that General William Westmoreland said "saved the Mekong Delta" during the Tet Offensive of 1968; and the Vietnam Navy. An important section details the SEALORDS combined campaign, a determined effort by U.S. Navy, South Vietnamese Navy, and allied ground forces to cut enemy supply lines from Cambodia and disrupt operations at base areas deep in the delta. The author also covers details on

the combat vessels, helicopters, weapons, and equipment employed in the Mekong Delta as well as the Vietnamese combatants (on both sides) and American troops who fought to secure Vietnam's waterways. Special features focus on the ubiquitous river patrol boats (PBRs) and the Swift boats (PCFs), river warfare training, Vice Admiral Elmo R. Zumwalt Jr., the Black Ponies aircraft squadron, and Navy SEALs. This publication may be of interest to history scholars, veterans, students in advanced placement history classes, and military enthusiasts given the continuing impact of riverine warfare on U.S. naval and military operations in the 21st century. "Nineteen Eighty-Four: A Novel", often published as "1984", is a dystopian social science fiction novel by English novelist George Orwell. It was published on 8 June 1949 by Secker & Warburg as Orwell's ninth and final book completed in his lifetime.

Thematically, "Nineteen Eighty-Four" centres on the consequences of totalitarianism, mass surveillance, and repressive regimentation of persons and behaviours within society. Orwell, himself a democratic socialist, modelled the authoritarian government in the novel after Stalinist Russia. More broadly, the novel examines the role of truth and facts within politics and the ways in which they are manipulated. The story takes place in an imagined future, the year 1984, when much of the world has fallen victim to perpetual war, omnipresent government surveillance, historical negationism, and propaganda. Great Britain, known as Airstrip One, has become a province of a totalitarian superstate named Oceania that is ruled by the Party who employ the Thought Police to persecute individuality and independent thinking. Big Brother, the leader of the Party, enjoys an intense cult of personality despite the fact that he may not even exist. The protagonist, Winston Smith, is a diligent and skillful rank-and-file worker and Outer Party member who secretly hates the Party and dreams of rebellion. He enters into a forbidden relationship with a colleague, Julia, and starts to remember what life was like before the Party came to power.

The History of Terrorism Yale University Press

Includes over 75 maps, photos and plans. The present volume describes the activities of the U.S. Army in Vietnam during World War II, military advice and assistance to the French government during the immediate post-war years, and the advisory program that developed after the Geneva Agreements of 1954. Its scope ranges from high-level policy decisions to low-echelon advisory operations in the field, presented against a background of relevant military and political developments. The author enjoyed access to the official records of the period and examined personal papers, interviews, other documentary sources, and miscellaneous published materials. Useful not only as a study of military assistance but as a view of the Army as an agent of national policy, this volume is a fitting introduction to the overall study of the conflict in Vietnam.

Against majority opinion within his profession, Donald Bloxham argues that it is legitimate, often unavoidable, and frequently important for historians to make value judgements about the past. *History and Morality* draws on a wide range of historical examples, and its author's insights as a practicing historian. Examining concepts like impartiality, neutrality, contextualisation, and the use and abuse of the idea of the past as a foreign country, Bloxham's book investigates how far tacit moral judgements infuse works of history, and how strange those histories would look if the judgements were removed. The author argues that rather than trying to eradicate all judgemental elements from their work, historians need to think more consistently about how, and with what justification, they make the judgements that they do. The importance of all this lies not just in the responsibilities that historians bear towards the past - responsibilities to take historical actors on those actors' own terms and to portray the impact of those actors' deeds - but also in the role of history as a source of identity, pride, and shame in the present. The account of moral thought in *History and Morality* has ramifications far beyond the activities of vocational historians.

Homosexuality in Modern France Oxford University Press

This volume explores the realities and representations of same-sex sexuality in France in the eighteenth, nineteenth, and twentieth centuries, the period that witnessed the emergence of "homosexuality" in the modern sense of the word. Based on archival research and textual analysis, the articles examine the

development of homosexual subcultures and illustrate the ways in which philosophes, pamphleteers, police, novelists, scientists, and politicians conceptualized same-sex relations and connected them with more general concerns about order and disorder. The contributors--Elizabeth Colwill, Michael David Sibal, Victoria Thompson, William Peniston, Vernon Rosario II, Francesca Canade-Sautman, Martha Hanna, Robert A. Nye, and the editors Bryant T. Ragan, Jr. and Jeffrey Merrick--use the methods of intellectual and cultural history, the history of science, literary studies, legal and social history, and microhistory. This collection shows how the subject of homosexuality is related to important topics in French history: the Enlightenment, the revolutionary tradition, social discipline, positivism, elite and popular culture, nationalism, feminism, and the construction of identity. Given the role of gays and lesbians in modern French culture and the work of French scholars on the history of sexuality, this collection fills an important gap in the literature and represents the first attempt in any language to explore this subject over three centuries from a variety of perspectives.

This authoritative work provides an essential perspective on terrorism by offering a rare opportunity for analysis and reflection at a time of ongoing violence, threats, and reprisals. Some of the best international specialists on the subject examine terrorism's complex history from antiquity to the present day and find that

terror, long the weapon of the weak against the strong, is a tactic as old as warfare itself. Beginning with the Zealots of the first century CE, contributors go on to discuss the Assassins of the Middle Ages, the 1789 Terror movement in Europe, Bolshevik terrorism during the Russian Revolution, Stalinism, "resistance" terrorism during World War II, and Latin American revolutionary movements of the late 1960s. Finally, they consider the emergence of modern transnational terrorism, focusing on the roots of Islamic terrorism, al Qaeda, and the contemporary suicide martyr. Along the way, they provide a groundbreaking analysis of how terrorism has been perceived throughout history. What becomes powerfully clear is that only through deeper understanding can we fully grasp the present dangers of a phenomenon whose repercussions are far from over. This updated edition includes a new chapter analyzing the rise of ISIS and key events such as the 2015 Paris attacks.

"Investigating Iwo encourages us to explore the connection between American visual culture and World War II, particularly how the image inspired Marines, servicemembers, and civilians to carry on with the war and to remember those who made the ultimate sacrifice to ensure victory over the Axis Powers. Chapters shed light on the processes through which history becomes memory and gains meaning over time. The contributors ask only that we be willing to take a closer look, to remain open to new perspectives that can deepen our understanding of familiar topics related to the flag raising, including Rosenthal's famous picture, that continue to mean so much to us today"--

As the summer of 1821 began, John James Audubon's ambition to create a comprehensive pictorial record of American birds was still largely a dream. Then, out of economic necessity, Audubon came to Oakley Plantation, a sprawling estate in Louisiana's West Feliciana Parish. Teeming with an abundance of birds, the woods of Oakley galvanized Audubon's sense of possibility for one of the most audacious undertakings in the annals of art. In *A Summer of Birds*, journalist and essayist Danny Heitman sorts through the facts and romance of Audubon's summer at Oakley, a season that clearly shaped the destiny of the world's most famous bird artist. Heitman draws from a rich variety of sources -- including Audubon's own extensive journals, more recent Audubon scholarship, and Robert Penn Warren's poetry -- to create a stimulating excursion across time, linking the historical man Audubon to the present-day civic and cultural icon. He considers

the financial straits that led to Audubon's employment at Oakley as a private tutor to fifteen-year-old Eliza Pirrie, Audubon's family history, his flamboyance as a master of self-invention, his naturalist and artistic techniques, and the possible reasons for his dismissal. Illustrations include photographs of Oakley House -- now a state historic site -- Audubon's paintings from his Oakley period, and portraits of the Pirrie family members. A favorable combination of climate and geography made Oakley a birding haven, and Audubon completed or began at least twenty-three bird paintings -- among his finest work -- while staying there. *A Summer of Birds* will inform and delight readers in its exploration of this eventful but unsung 1821 interlude, a fascinating chapter in the life of America's foremost bird artist. It is an indispensable pleasure for birders, Audubon enthusiasts, and visitors to Oakley House.
