The people of East Timor voted overwhelmingly in August 1999 for independence and an end to Indonesian occupation. In this updated and much expanded edition of Indonesia's Forgotten War: The Hidden History of East Timor (Zed Books, rev ed 1994), John Taylor tells the story of what happened following President Suharto's overthrow. The new government conceded the right of the United Nations to organise the long delayed referendum giving the East Timorese a choice between continued association with Indonesia or independence. At the very moment the historic vote was being counted, armed gangs organised by the Indonesian military plunged the island into an orgy of killing, burning and forced flight. John Taylor analyses the world's reaction to this new genocide of the East Timorese people, the despatch

of a peacekeeping force, and the prospects of independence.

How can such a gentle people as we are be so murderous? a prominent Indonesian asks. That question--and the mysteries of the archipelago's vast contradictions--haunt Theodore Friend's remarkable work, a narrative of Indonesia during the last half century, from the postwar revolution against Dutch imperialism to the unrest of today. Part history, part meditation on a place and a past observed firsthand, Indonesian Destinies penetrates events that gave birth to the world's fourth largest nation and assesses the continuing dangers that threaten to tear it apart. Friend reveals Sukarno's character through wartime collaboration with Japan, and Suharto's through the mass murder of communists that brought him to power for thirty-two years. He guides our understanding of the tolerant forms of Islam prevailing among the largest Muslim population in the world, and shows growing tensions generated by international terrorism. Drawing on a deep knowledge of the country's cultures, its leaders, and its ordinary people, Friend gives a human

face and a sense of immediacy to the self-inflicted failures and immeasurable tragedies that cast a shadow over Indonesia's past and future. A clear and compelling passion shines through this richly illustrated work. Rarely have narrative history and personal historical witness been so seamlessly joined.

Unity in Diversity and the Standardisation of Clinical Pharmacy

Services represents the proceedings of the 17th Asian Conference on Clinical Pharmacy (ACCP 2017), held 28–30 July 2017 in Yogyakarta, Indonesia. The primary aim of ACCP 2017 was to bring together experts from all fields of clinical pharmacy to facilitate the discussion and exchange of research ideas and results. The conference provided a forum for the dissemination of knowledge and exchange of experiences. As such, it brought together clinical pharmacy scholars, pharmacy practitioners, policy makers and stakeholders from all areas of pharmacy society and all regions of the world to share their research, knowledge, experiences, concepts, examples of good practice, and critical analysis with their international peers. This year also marks the celebration of 20 years of ACCP. Central themes of the conference and contributed papers were Clinical Pharmacy, Social and Administrative Pharmacy, Pharmacy Education, Pharmacoeconomics, Pharmacoepidemiology, Complementary and Alternative Medicine (CAM) and a number of related topics in the field of Pharmacy.

This widely praised work provides a framework for the many voices calling for the reaffirmation of democratic values, citizenship, and service in the public interest. The expanded edition includes an all-new chapter that addresses the practical issues of applying these ideals in actual, real-life situations. "The New Public Service, Expanded Edition" is organized around a set of seven core principles: serve citizens, not customers; seek the public interest; value citizenship and public service above entrepreneurship; think strategically, act democratically; recognize that accountability isn't simple; serve, rather than steer; and value people, not just productivity. The book asks us to think carefully and critically about what public service is, why it is important, and what values ought to guide what we do and how we do it. It celebrates what is distinctive, important and meaningful about public service and considers how we might better live up to those ideals and values. All students and serious practitioners in public administration and public policy should read this book. While debates about public policy issues will surely continue, this compact, clearly written volume provides an important framework for public service based on and fully integrated with citizen discourse and the public interest.

Leading experts describe the concepts and roots of mindfulness, as well as examining the science that has led to this extraordinarily rich and ancient practice becoming a foundation to many contemporary, evidence-based approaches in psychotherapy. The efficacy of mindfulness-based interventions in conditions as diverse as borderline personality disorder, post-traumatic stress disorder, depression, alcohol and substance use, emotional dysregulation, attention-deficit hyperactivity disorder, chronic stress,

eating disorders, and other medical conditions including type 2 diabetes and rheumatoid arthritis is also described. The book is therefore invaluable reading for all those curious about the current science around mindfulness and about how and when to incorporate it effectively into clinical practice.

Sudah siapkah kalian menghadapi rangkaian tes seleksi TNI/POLRI? Tidak bisa dipungkiri, ujian seringkali membuat cemas sebagian besar orang. Terlebih ujian dengan karakter persaingan yang luar biasa ketat ditambah hasil seleksi ikut menentukan nasib kita ke depan. Sebenarnya, apa yang membuat seseorang merasa cemas menghadapi ujian? Jawaban dari pertanyaan ini cukup sederhana, semua itu disebabkan karena kurangnya persiapan seseorang dalam menghadapi ujian. Kecemasan umumnya timbul dari rasa tidak percaya diri atau rasa tidak mampu. Ketidakpercayaan diri timbul karena kurangnya persiapan. Jadi, persiapanlah yang menjadi kunci keberhasilan dalam menghadapi ujian. Persiapan menghadapi tes seleksi TNI/POLRI tidak hanya sebatas belajar untuk menguasai materi, tapi juga mencakup persiapan mental. Mempersiapkan mental untuk menghadapi ujian mutlak diperlukan. Mental yang tidak siap mengakibatkan buyarnya konsentrasi kita dalam menjalani proses ujian. Alhasil, materi-materi yang sebelumnya sudah kita kuasai pun ikut hilang. Mengingat begitu besarnya pengaruh mental terhadap keberhasilan kita menjalani ujian, maka gangguan-gangguan mental termasuk kecemasan yang kita rasakan harus diatasi. Caranya, pertama, hilangkan pikiran negatif terkait ujian. Kedua,

hilangkan rasa tidak percaya diri dengan banyak persiapan dan latihan. Tumbuhkan keyakinan yang kuat bahwa kita bisa melakukannya. Ketiga, jaga kesehatan. Menjaga kesehatan tubuh penting agar kita bisa tampil prima. Di dalam tubuh yang sehat terdapat jiwa yang kuat. Jadi, dalam rangka mempersiapkan mental untuk menghadapi ujian, kita harus menjaga kesehatan tubuh dengan baik. Jika badan sakit, loyo, kurang gairah, kita juga tidak akan bisa belajar. Berolahragalah secara rutin, makan yang teratur, dan istirahat cukup. Terakhir adalah banyak berdoa. Doa adalah bentuk kepasrahan kita kepada yang Mahapencipta. Kita adalah miliknya, jadi selalu mohon perlindungan kepada Tuhan dari hal-hal negatif baik dari dalam maupun luar diri kita. Memohon diberi fisik dan mental yang sehat agar bisa menjalani ujian dengan baik adalah langkah yang baik untuk membuat diri kita jauh lebih siap. Setelah memperbaiki mental dari negatif menjadi positif, kini saatnya kita mempersiapkan diri untuk penguasaan materi, yaitu dengan belajar dan berlatih dengan penuh semangat. Hal terpenting dalam belajar adalah jangan belajar mendadak. Persiapan belajar untuk ujian seleksi TNI/POLRI setidaknya 3 bulan sebelum hari H. Tujuan kita belajar adalah mendapatkan pemahaman dan pemahaman membutuhkan waktu. Dalam seleksi TNI/POLRI sesungguhnya materi ujian sudah standar dan tidak jauh berubah dari tahun ke tahun. Persiapkan semuanya. "Sedikit demi sedikit lama-lama menjadi bukit", belajar rutin setiap hari jauh lebih efisien dari belajar sistem borongan, alias sistem SKS. Kita perlu mengatur pola belajar. Misalnya, ada berapa materi tes yang diujikan dalam penerimaan TNI/POLRI

dan ada berapa bab tiap materi tes tersebut. Kemudian, coba hitung masih ada berapa waktu yang dimiliki dan jumlah bab itu dibagi per minggu. Jadi, setiap minggu kita memiliki "tugas" mempelajari bab-bab tertentu sesuai jadwal. Dengan target tiap minggu ini, beban sebelum ujian akan dirasakan lebih terkelola, sehingga saat menghadapi ujian seleksi penerimaan TNI/POLRI kelak perasaan menjadi lebih tenang karena semua bahan sudah dipelajari. Buku ini hadir sebagai teman belajar kalian menghadapi rangkaian ujian/tes seleksi masuk TNI POLRI. Berisi seribu lebih soal full pembahasan oleh Tim LITBANG Psiko-Akademik Salemba (LPAS). Buku juga dilengkapi bonus CD software dan video tes fisik, plus aplikasi android yang bisa kalian download gratis dari Google Play. Harapannya, buku ini bisa turut serta menghantarkan kalian sukses menjalani tes

Ethical Choices in Research SAGE

Among the criteria for accession to the European Union are democracy and the Rule of Law. In the insightful analysis offered by the author of this book, these concepts - while admirable and even necessary criteria in principle - are almost impossible to measure, and any judgement grounded in them will always be difficult to justify. In his words, 'by including analysis of democracy and the Rule of Law within the field of the EU enlargement law, the Union entered an unstable terrain of vague causal connections and blurred definitions.' Dr Kochenov addresses this problem by proceeding as follows: 1. Outlining EU enlargement law in general, including the principle of conditionality and the role played by the analysis of democracy and the Rule of Law in enlargement preparation; 2. Focusing on the role actually played by the monitoring of democracy and the Rule of Law in ten candidate countries, scrutinizing the way the EU used the legal tools and competences outlined in its enlargement law. The book adopts the EU's own understanding of democracy and the Rule of Law, as derived directly from the substance of the numerous legal and political instruments issued by the Community Institutions and especially the Commission in the course of the pre-accession process. In this way it demonstrates the actual - as opposed to the officially announced - role played by the assessment of democracy and the Rule of Law in the candidate countries in the regulation of enlargement. Many formidable inconsistencies in the

application of the conditionality principle are thus laid bare. This leads the author to a series of recommendations on policy and procedure that he demonstrates could be profitably applied to the regulation of current and future accessions, using the Commission's own structure of monitoring pre-accession reforms in the three areas of the legislature, executive, and judiciary in candidate countries. The probity and soundness of these recommendations, firmly grounded as they are in the actual pre-accession monitoring and its consequences for the pre-accession progress of ten Eastern European countries admitted to the EU in 2004 and 2007, will greatly interest policymakers and scholars concerned with the future of European integration.

This volume has been divided into two parts: Geometry and Applications. The geometry portion of the book relates primarily to geometric flows, laminations, integral formulae, geometry of vector fields on Lie groups and osculation; the articles in the applications portion concern some particular problems of the theory of dynamical systems, including mathematical problems of liquid flows and a study of cycles for non-dynamical systems. This Work is based on the second international workshop entitled "Geometry and Symbolic Computations," held on May 15-18, 2013 at the University of Haifa and is dedicated to modeling (using symbolic calculations) in differential geometry and its applications in fields such as computer science, tomography and mechanics. It is intended to create a forum for students and researchers in pure and applied geometry to promote discussion of modern state-of-the-art in geometric

modeling using symbolic programs such as Maple™ and Mathematica®, as well as presentation of new results.

Many books discuss the ethical treatment of human subjects in behavioral research, yet few talk about the equally important ethical issues that arise when the data are being analyzed and the study is being written up. All researchers need to be aware of their professional responsibilities and make sound choices after the subjects have left. This practical and easy-to-follow guide walks readers through often overlooked decision points in the research process. Drawing from his extensive experience as a teacher of research methods and a senior editorial advisor, and from well-established standards of practice -- including the APA Ethics Code -- Harris Cooper is the ideal mentor in this process. Readers of this book will learn how to: Collect and manage data in a way that does not compromise the confidentiality of subjects Avoid data fraud and misleading data analysis Assign research responsibilities and authorships to team members Avoid committing plagiarism and intellectual theft Navigate the journal submission and publication process Post-publication ethical considerations are also addressed, including researchers' obligations when communicating their findings to the media and the general public, and when engaging with the scientific community as a peer reviewer.

A central aspect of teachers' professional knowledge and competence is the ability to assess students' achievements adequately. Giving grades and marks is one prototypical task in this context. Besides giving grades, assessments for school placements or tracking decisions belong to these tasks. Relevant students' characteristics which influence teachers' assessments do not only involve academic achievement but also students' responses to different task demands as well as non-academic characteristics such as learning motivation or school anxiety. Closely associated with the investigation of teachers' assessment competences and, more specifically, the investigation of conditions associated with high quality of assessments is the development and evaluation of teacher training programs to improve professional competences. In recent years, there has been considerable progress in the domain of professional teacher training; however, only a very limited number of studies are dedicated to the question to what extent training programs might offer valuable approaches to improve the quality of assessments and to implement high assessment competences. Another important field which is closely related to teachers' competences concerns the question how teachers' professional development is linked to students' learning and learning outcomes. In recent years, the societal demand for evidence that teachers' professional development will result in improved student learning outcomes is increasing. This volume brings together questions on assessment, training, and learning in the professional development of

teachers which have not been fully discussed yet. The identification of these research gaps was the reason for dedicating a series of lectures given at the University of Luxembourg 2012 to the topic of professionalization of teachers in these domains. Therefore, this book contains contributions from outstanding international scholars in different academic disciplines to present ideas about open research questions concerning the domains of assessment, training, and learning in the professional development of teachers.

We are witnessing an unprecedented global outbreak of COVID-19, which has been devastating in its consequences. Beyond the acute health hazard, the pandemic has carried with it other threats for mankind associated with the human economy, society, culture, psychology and politics. Amidst these multifarious dimensions of the pandemic, it is high time for global solidarity to save humankind. Human society, its ambient environment, the process of socio-economic development, and politics and power – all are drivers to establish the world order. All these parameters are intimately and integrally related. The interconnections of these three driving forces have a significant bearing on life, space and time. In parallel, the interrelationship between all these drivers is dynamic, and they are changed drastically with time and space. The statistics serve to align the thought, based on which social scientists need to understand the prevailing equation to project the unforeseen future. The

trajectory of the future world helps in planning and policymaking with a scientific direction. The practitioners of all academic disciplines under the umbrella of the social sciences need a common platform to exchange ideas that may be effective in the sustainable management of the crisis and the way forward after it is mitigated. This book provides multidisciplinary contributions for expressing the solidarity of academic knowledge to fight against this global challenge. It is crucial that there should be an on-going discussion and exchange of ideas, not only from the perspective of the current times but keeping in view the preparedness for unforeseen post-COVID crises as well.
