The essays included in this collection deal with a wide and diverse range of problems and issues: namely, Cultural Complexity; Globalization; Glocalization; Relativism; Bullshit; Embodied and Situated Cognition; Capabilities Approach; Moral Universalism; Solidarity; Cosmopolitanism; Pluralism; Human Rights; Justice; and "Philosophy" after the end of Philosophy. This work takes its main title from the last essay, in which the author makes an effort to rethink the nature and purpose of "philosophy" for our times, sketching a proposal for a new beginning for philosophy as "critical philosophy." Such a philosophy would have a clear and compelling emancipatory thrust. At this point in human history, it would have to be underwritten by an ethical universalism that is pluralistic, historically enlightened and non-ethnocentric. In addition, it would take seriously the consequences of complexity in a world that is increasingly interconnected and interdependent, yet still so far apart, and would be prepared to draw the full implications of the embodied and situated cognition paradigm shift which has taken place in the past few decades. It would, furthermore, take aim at the bullshit, in all of its manifestations, that is so pervasive in various quarters throughout the whole of culture and society. Finally, it would effectively contribute to the articulation and elaboration of the kinds of concepts, frameworks, narratives and practices, generally speaking, which could somehow enable humans to rise to the next level in their understanding of the globalizing and glocalizing world in which they live, and which is, as is common knowledge, dramatically confronted by a number of serious challenges, grave risks and threats, dismal shortcomings and failures. This work offers compelling analyses and diagnostics, and makes some sketch-proposals to urgently grapple with them.

The Beginning After The End Simon and Schuster

In this study of the cultural pursuit of the end and what follows, Berger contends that every apocalyptic depiction leaves something behind, some mixture of paradise and wasteland. Combining literary, psychoanalytic, and historical methods, Berger mines these depictions for their weight and influence on current culture. He applies wide-ranging evidence--from science fiction to Holocaust literature, from Thomas Pynchon to talk shows, from American politics to the fiction of Toni Morrison--to reveal how representations of apocalyptic endings are indelibly marked by catastrophic histories.

Not every human, elf, or dwarf could be equally important to me, and that's a fact that I had accepted long ago. I was here to serve my role, to help end this war, but it wasn't for world peace or to save mankind—it was so, one day, I could lead a comfortable and happy life with the people I loved and cared for. Arthur Leywin has experienced two lifetimes of challenge and adventure. He has lived as a swordsman, a mage, an adventurer, and a king. Now his two lives, old and new, will collide, revealing the connection between King Grey and Arthur Leywin, but at what cost? And how will this affect the ongoing war between the nations of Alacrya and Dicathen? Enemy forces threaten the coastal cities, the elven forests, and the fortified mountain passes; Dicathen's most powerful allies have vanished; and the military alliance between men, elves, and dwarves threatens collapse. Arthur may be the last hope for his people, but when forced to choose between family and country, where will his loyalty lie?

'Philosophy' - After the End of Philosophy BRILL

Over a decade ago, Arthur Danto announced that art ended in the sixties. Ever since this declaration, he has been at the forefront of a radical critique of the nature of art in our time. After the End of Art presents Danto's first full-scale reformulation of his original insight, showing how, with the eclipse of abstract expressionism, art has deviated irrevocably from the narrative course that Vasari helped define for it in the Renaissance. Moreover, he leads the way to a new type of criticism

that can help us understand art in a posthistorical age where, for example, an artist can produce a work in the style of Rembrandt to create a visual pun, and where traditional theories cannot explain the difference between Andy Warhol's Brillo Box and the product found in the grocery store. Here we are engaged in a series of insightful and entertaining conversations on the most relevant aesthetic and philosophical issues of art, conducted by an especially acute observer of the art scene today. Originally delivered as the prestigious Mellon Lectures on the Fine Arts, these writings cover art history, pop art, "people's art," the future role of museums, and the critical contributions of Clement Greenberg—who helped make sense of modernism for viewers over two generations ago through an aesthetics-based criticism. Tracing art history from a mimetic tradition (the idea that art was a progressively more adequate representation of reality) through the modern era of manifestos (when art was defined by the artist's philosophy), Danto shows that it wasn't until the invention of Pop art that the historical understanding of the means and ends of art was nullified. Even modernist art, which tried to break with the past by questioning the ways of producing art, hinged on a narrative. Traditional notions of aesthetics can no longer apply to contemporary art, argues Danto. Instead he focuses on a philosophy of art criticism that can deal with perhaps the most perplexing feature of contemporary art: that everything is possible.

It Is Me ... Again ... after the End Open Road + Grove/Atlantic

Ten "stark, realistic" short stories from the PEN/Hemingway Award-winning author 'told in mostly gritty matter-of-fact prose' (The Boston Globe). Dagoberto Gilb wrote most of the stories in *Before the End*, *After the Beginning* while he recovered from a stroke he suffered in 2009. The result is a powerful and triumphant volume that tackles common themes of identity, mortality, and the physical limitations which arose during his own illness. Taking readers throughout the American West and Southwest, from Los Angeles and Albuquerque to El Paso and Austin, these ten stories cover territory close to Gilb's heart—a mother and son's relationship in Southern California in the story 'Uncle Rock' or a man looking to shed his chaotic past in 'The Last Time I Saw Junior'—while describing the American experience in his raw, inimitable style. With this new collection, Gilb offers what may be his most extraordinary achievement to date with "an authenticity that's unimpeachable" (San Antonio Express News).

Volume 1 of *The Beginning After The End* I never believed in the whole "light at the end of the tunnel" folly where people, after having a near-death experience, would startle awake in a cold sweat exclaiming, "I saw the light!" Given a second chance at life, the once-king strives to understand his role in this new world and the purpose of his reincarnation while correcting the mistakes of his past.
