Wintertime at the orchard has Peter learning some important lessons about speaking up in this second novel of a sweet series about the bonds of friendship. Blanketed in snow, the orchard looks like a magical wonderland. But Peter is not so charmed by his new life. He just can't ignore how he's always ignored any longer. Sarah, Lizzie, and Olive are always talking over him and bossing him around. And on top of that, it's really cold outside. One January day, Peter reluctantly agrees to join the girls on a carriage ride through the freshly fallen snow. But things go terribly wrong when a dog incident has the horses running away in fear, with Peter and the carriage trailing dangerously behind them. Then, Peter hits his head on a passing branch and is thrown to the ground. Woozy, Peter wakes up alone in the snow but he makes his way to a cozy cottage. Kai, the cool new kid, opens the door and welcomes Peter inside. Kai shows him a magical mirror that brings the two new friends to another world. A world where people listen to Peter and need his help to defeat dragons, warlocks, and other scary things. Then Peter wakes up in the hospital with a bandage around his head. Everyone is so happy to see him awake. Peter tries to tell them all about the mirror but they dismiss his experience as a wild dream. When Peter goes back to school, it seems like Kai knows what Peter's talking about. Could the dream have been real? Is there really a magic

portal deep in the woods behind the orchard? Even if everyone thinks he's crazy, Peter is determined to find out. *Edward the Emu* University of Chicago Press

Few novels take on the real-life neighborhood issues

of gentrification, big money, and the destructive loss of old ways. This book does, and in the process shines a light on the magical and complex history of Harlem and its many brilliant art forms. Tarpley shares Harlem's past and present glory with grace and respect, and in the process offers inspiration to all who would love to see its unique beauty survive." -- Blue Balliett, New York Times bestselling author of *Chasing Vermeer* Praise for *I Love My Hair!*: "A very special book about self-acceptance." -- School Library Journal "[A] celebration of African American identity." -

The ultimate must-read handbook for the modern mother: a practical, and positive tool to help free women from the debilitating notion of being the "perfect mom," filled with funny and all too relatable true-life stories and realistic suggestions to stop the burnout cycle, and protect our kids from the damage burnout can cause. Moms, do you feel tired? Overwhelmed? Have you continually put off the things you need to do for you? Do you feel like it's all worth it because your kids are happy? Are you "over" being a mother? If you answered yes to these questions, you're not alone. Parents today want to create the ideal childhood for their children. Women strive to be the picture-perfect Pinterest mother that looks amazing, hosts the best birthday parties in town, posts the most "liked" photos, and serves delicious, nutritious home-cooked meals in her neat, organized home after ferrying the kids to school and a host of extracurricular activities on time. This drive, while noble, can also be destructive, causing stress and anxiety that leads to "mommy burnout." Psychologist and family counselor Dr. Sheryl Ziegler is well-versed in the stress that moms face, and the burden of guilt they carry because they often feel like they aren't doing enough for their kids' happiness. A mother of three herself, Dr. Z—as she's affectionately known by her many patients—recognizes and understands that modern moms are all too often plagued by exhaustion, failure, isolation, self-doubt, and a general lack of self-love, and their families are also feeling the effects, too. Over the last nineteen years working with families and children, Dr. Z has devised a prescriptive program for addressing "mommy burnout"—teaching moms that they can learn to re-energize themselves and still feel good about their families and their lives. In this warm and empathetic

guide, she examines this modern epidemic among mothers who put their children's happiness above their own, and offers empowering, proven solutions for alleviating this condition, saving marriages and keeping kids happy in the process.

For decades we've been studying, experimenting with, and wrangling over different approaches to improving public education, and there's still little consensus on what works, and what to do. The one thing people seem to agree on, however, is that schools need to be held accountable—we need to know whether what they're doing is actually working. But what does that mean in practice? High-stakes tests. Lots of them. And that has become a major problem. Daniel Koretz, one of the nation's foremost experts on educational testing, argues in *The Testing Charade* that the whole idea of test-based accountability has failed—it has increasingly become an end in itself, harming students and corrupting the very ideals of teaching. In this powerful polemic, built on unimpeachable evidence and rooted in decades of experience with educational testing, Koretz calls out high-stakes testing as a sham, a false idol that is ripe for manipulation and shows little evidence of leading to educational improvement. Rather than setting up incentives to divert instructional time to pointless test prep, he argues, we need to measure what matters, and measure it in multiple ways—not just via standardized tests. Right now, we're lying to ourselves about whether our children are learning. And the longer we accept that lie, the more damage we do. It's time to end our blind reliance on high-stakes tests. With *The Testing Charade*, Daniel Koretz insists that we face the facts and change course,

and he gives us a blueprint for doing better.

The Harlem Charade Macmillan Children's Books

Kristine Barnett's son Jacob has an IQ higher than Einstein's, a photographic memory, and he taught himself calculus in two weeks. At nine he started working on an original theory in astrophysics that experts believe may someday put him in line for a Nobel Prize, and at age twelve he became a paid researcher in quantum physics. But the story of Kristine's journey with Jake is all the more remarkable because his extraordinary mind was almost lost to autism. At age two, when Jake was diagnosed, Kristine was told he might never be able to tie his own shoes. *The Spark* is a remarkable memoir of mother and son. Surrounded by "experts" at home and in special ed who tried to focus on Jake's most basic skills and curtail his distracting interests—moving shadows on the wall, stars, plaid patterns on sofa fabric—Jake made no progress, withdrew more and more into his own world, and eventually stopped talking completely. Kristine knew in her heart that she had to

make a change. Against the advice of her husband, Michael, and the developmental specialists, Kristine followed her instincts, pulled Jake out of special ed, and began preparing him for mainstream kindergarten on her own. Relying on the insights she developed at the daycare center she runs out of the garage in her home, Kristine resolved to follow Jacob's "spark"—his passionate interests. Why concentrate on what he couldn't do? Why not focus on what he could? This basic philosophy, along with her belief in the power of ordinary childhood experiences (softball, picnics, s'mores around the campfire) and the importance of play, helped Kristine overcome huge odds. The Barnetts were not wealthy people, and in addition to financial hardship, Kristine herself faced serious health issues. But through hard work and determination on behalf of Jake and his two younger brothers, as well as an undying faith in their community, friends, and family, Kristine and Michael prevailed. The results were beyond anything anyone could have imagined. Dramatic, inspiring, and transformative, *The Spark* is about the power of love and courage in the face of overwhelming obstacles, and the dazzling possibilities that can occur when we learn how to tap the true potential that lies within every child, and in all of us. Praise for *The Spark* "[An] amazing memoir . . . compulsive reading."—*The Washington Post* "The *Spark* is about the transformative power of unconditional love. If you have a child who's 'different'—and who doesn't?—you won't be able to put it down."—Sylvia Nasar, author of *A Beautiful Mind* "Love, illness, faith, tragedy and triumph—it's all here. . . . Jake Barnett's story contains wisdom for every parent."—*Newsday* "This eloquent memoir about an extraordinary boy and a resilient and remarkable mother will be of interest to every parent and/or educator hoping to nurture a child's authentic 'spark.'"—*Publishers Weekly* "Compelling . . . Jake is unusual, but so is his superhuman mom."—*Booklist* "The *Spark* describes in glowing terms the profound intensity with which a mother can love her child."—Andrew Solomon, author of *The Noonday Demon* and *Far from the Tree* "Every parent and teacher should read this fabulous book!"—Temple Grandin, author of *Thinking in Pictures* and co-author of *The Autistic Brain*
